 DeBary, FL 32713

JUL 27 2005

Dear Mr. Tovey:

**Subject:** Revised Labeling in Response to Reregistration Eligibility Document for  
 Products Containing Propoxur as the Active Ingredient  
 Don's D-K2 Concentrated Bug Killer  
 EPA Registration No. 4972-30  
 Your Submission Dated May 23, 2005

The Agency has completed its review of the proposed labeling submitted for this product in connection with the 8-month response to the Reregistration Eligibility Document (RED) for Propoxur as referenced above. It has been determined that the labeling is acceptable to support the reregistration of this product, with the following provisions:

- 1) Within the First Aid box, add the appropriate telephone number to the subsection for Hot Line Number.
- 2) Correct the typographical error present in the last sentence of the Environmental Hazards section so that it reads "Do not contaminate water by cleaning of equipment or disposal of wastes."
- 3) Relocate the misuse statement, reading "It is a violation of Federal Law to use this product in a manner inconsistent with its labeling", so that it appears directly beneath the Directions for Use heading.

A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the referenced label, incorporating the changes indicated above, before releasing the product for shipment.

DK: 305-7546: IRB/PM01

EPA Reg. No. 1021-

EPA Est. No. 1021-MN-2

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply this product around electrical equipment due to the possibility of shock hazard.

[MGK® Roach Bait 2822] [Brand name] contains Abamectin, an ingredient that keeps killing roaches [Cockroaches] continually [nonstop]. [MGK® Roach Bait 2822] [Brand name] is so advanced it kills roaches [Cockroaches][where they breed. [ MGK® Roach Bait 2822][Brand name] may be placed anywhere you have seen roaches [Cockroaches], even in cabinets. [MGK® Roach Bait 2822] [Brand name] is guaranteed to work even for severe bug [insect] infestations.

For Household Use -- In closets, basements, attics, recreation rooms, living areas, kitchens, bathrooms, dining rooms, pantries, food storage shelving, waste receptacles, etc.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product In a manner inconsistent with its labeling.

Do not apply to humans, animals, clothing, or bedding.

2/3

Do not contaminate feed or food products, or food preparation surfaces, dishes, kitchen utensils or food containers.

Do not use [residual] [insecticide] sprays on or near [gel] [MGK® Roach Bait 2822] [Brand name].

**GENERAL USE DIRECTIONS:**

This product is for use only as a spot or crack and crevice treatment for the indoor control of roaches [Cockroaches] in residential areas (only in areas inaccessible to children and pets) and both food/feed and non-food/non-feed areas of institutional, warehousing, and commercial establishments, including warehouses, restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, schools, laboratories, computer facilities, buses, boats/ships, trains, pet shops, and zoos.

Non-food/non-feed areas area areas such as garbage rooms, lavatories, entries, and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Food/feed areas include areas for receiving storage, packing (canning, bottling, wrapping, and boxing), preparing edible waste storage, and enclosed processing systems (mills, dairies, edible oils, and syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

[MGK® Roach Bait 2822] [Brand name] is for use in controlling roaches [Cockroaches] indoors. The pre-filled plastic reservoir containing [MGK® Roach Bait 2822] [Brand name] is intended for use with bait injector application devices common to the pest control industry. Inject into cracks and crevices, void spaces, and other locations where insects may harbor, live and breed. Concentrate the bait placements as individual spots at insect activity sites (only in areas inaccessible to children and pets).

Do not place bait in locations that are routinely washed, as bait will be removed by washing. Do not place treatments in locations where routine cleansing operations may transfer diluted bait to food or food preparation surfaces. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. Avoid contact with textiles and clothing, as bait may stain.

Avoid placing gel on fabrics or carpets since it may stain some absorbent materials. To prevent staining, exposed bait should be cleaned up immediately with a damp cloth or sponge.

**APPLICATION RATES:**

For light infestations of roaches [Cockroaches], 4 – 6 bait points are recommended per 100 square feet of treatment area. For heavy infestations of roaches [Cockroaches], 12 – 24 bait points are recommended per 100 square feet of treatment areas. Each bait point should equal about 0.25 to 0.50 grams of product. A spot approximately 3 mm or 1/8 inch in diameter equals 0.25 grams of product, while a spot approximately 6 mm or 1/4 inch in diameter equals 0.50 grams of product.

**TO APPLY GEL:**

1. Remove the cap from the nozzle, touch the top to the surface to be treated, and push down on the plunger. Apply bait as spots in cracks and crevices. Recap the dispenser after treatment is completed.
2. Store in a cool, dry place.
3. Do not apply gel to areas that have been recently sprayed with insecticide, and do not spray insecticide over gel, as this may cause the bait to become repellent.
4. The bait will adhere to non-greasy or non-dusty surfaces and will remain pliable and palatable to roaches [Cockroaches] as long as it is visibly present.
5. A visual inspection of bait placements is recommended at one month after the initial treatment. Reapply when bait is no longer visibly present, according to the level of infestation. [Replace bait before it is] [Do not allow bait to be] completely consumed to keep roaches [Cockroaches] from returning.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store in a cool, dry place. Keep container closed.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Do not reuse container. Place empty container in trash or offer for recycling if available. If container is partly filled, call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
