Back Panel:

U.S.D. of A. Reg. No. 4990-

COMBUSTIBLE MIXTURE DO NOT USE NEAR FIRE OR FLAME

HEDDY HORNET WASP and BEE KILLER will kill Hornets, Bees, Yellow Jacks, Wasps- Outdoors. Also Roaches, Crickets, June Bugs, Ants, Spiders, Centipedes, Silver Fish, and Waterbugs - Indoors. The spray is fast acting when insects are hit directly and has a long lasting residual effect indoors and on protected areas outdoors, with killing action remaining for two to four weeks unless spray is removed or washed off by rain. This product will give a stream type spray.

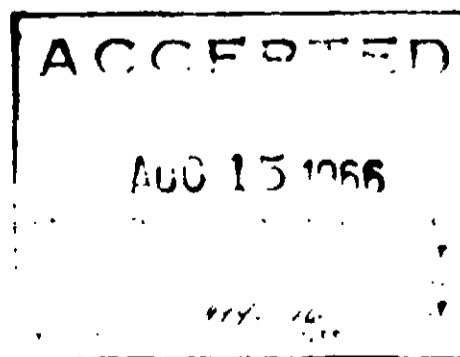

TO OPERATE: Remove protective cap. Depress button being sure to keep spray opening pointed away from you.

GENERAL INSTRUCTIONS OUTDOORS: Direct at insects wherever possible, ~~xxxxx~~ and under eaves, into nests, cracks, holes, or crevices wherever possible and wherever insects are noticed. Spray for about 15 seconds or until surface is moist from the insecticide. To prevent entrance of insects into the house spray around points where outside plumbing (faucets) enter house and into any crack or crevices in foundation as well as along sills and ledges. For INDOORS insects listed above, spray around pipes, under sinks, behind shelving, bookcases, and cabinets, along baseboard, into cracks, crevices and other dark moist places.

CAUTION: Harmful if swallowed. Repeated or prolonged contact with skin can cause toxic symptoms. If accidentally applied to skin wash well with soap and warm water, for eyes, flush with water, contact doctor. Avoid inhalation of spray mist. Contents under pressure. Keep away from direct sunlight, radiators, and other sources of heat. Do not store above 120° F. Do not puncture container. Do not spray on pets, animals, vegetation, or into ponds, streams, or lakes. Avoid contamination of food and foodstuffs.
