U.S.D.A. Reg. No. 4996-X

DIRECTIONS FOR USE

Shake Well Before Use

INDOORS: To break your pet of undesirable habits (such as sleeping on furniture,
rugs, and other forbidden areas in your home): Spray the article of furniture,
rug, etc., lightly with this product so that the area or object is slightly
moistened. Before spraying extensive areas of rugs, fabrics or plastics, test the
effect of this product by first treating a small inconspicuous area. This product
may stain or soften some fabrics or plastics. An alternate method to avoid possible
damage is to spray a piece of cloth lightly and place it on the object or area in
your home to be protected. Repeat daily, or as necessary, until undesirable habit
is broken.

OUTDOORS: To prevent your pet, or stray animals, from soiling flower beds,
areas of lawn, trees, shrubbery or evergreens: Spray the edges of flower beds, trunks
of trees, the bases of shrubbery and evergreens, patches of lawn, etc., lightly every
day, or every other day, with this product. Stray animals are frequently attracted to
areas where urine or feces have been deposited. First, remove any droppings, then
spray the spot with this masking cover. Re-apply as often as necessary until
undesirable habits of your pet or stray animals are changed.

Do not apply directly to foliage of plants, ornamental, soft-leaved plants.

GENERAL: For both indoor and outdoor situations, the most effective control for a
pet is the sharply spoken word backed up with disciplinary action. This repellent
product should be used in conjunction with training.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Contents under pressure. Do not apply to food or air. Avoid contamination of food
and feedstuffs. Wash hands with soap and water after spraying. Avoid contact with
skin. Store at temperatures above 120° F. or place container on radiator or
stove, or where excessive temperatures may be encountered.
