DIRECT CONTACT SPRAYING

For the control of Crickets, Roaches, Water-Bugs, Brown Dog Ticks, Fleas, House Centipedes, Silverfish, and Spiders, direct a wet spray toward infested areas, floors, cracks and crevices to hit the insects. Thorough application should be made repeating treatments as often as necessary. Apply CAPSUL FORMULA F-5 with an efficient hand or power sprayer that will deliver medium size droplets. Repeated treatment is recommended whenever reinfestation occurs. For controlling Ants, spray ants, ant trails, areas around door sills and window frames where the pests enter the premises. Repeat as often as necessary.

CAUTION

Do not contaminate food, feed, milk, milk handling equipment or drinking water. Avoid pouring, spraying, or storing near fire or flame. Harmful if swallowed. Keep away from children. Avoid breathing spray mist. Remove pets, birds and fish bowls before applying.

Use this product as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

NOTICE

Seller makes no warranty other than specified on this label. The buyer agrees that the seller shall not be responsible or liable for injury to crop, soil, person, or property arising from careless or improper use or handling of the product. Please use in accordance with seller's directions.
