FORMULA F-5

NATURAL PYRETHRIN INSECTICIDE

Not Reviewed. Registrant claims to be in accordance with Reregistration of Pesticide Product Guidance for Phase 2 Response, Page 2.12, Active to Inert Change in Status.

ACTIVE INGREDIENTS:

Pyrethrin	0.50 %
Technical piperonyl buloxide	1.00 %
N-octyl bicycloheptenedicarboximide	1.00 %
INERT INGREDIENTS	97.50 %
TOTAL	100.00 %

Contains petroleum distillates

E.P.A. EST. NO. 5011-IN-1

KEEP OUT OF REACH OF CHILDREN - 12 pt  
 CAUTION - 18 pt  
 HARMFUL IF SWALLOWED. CONTAINS PETROLEUM DISTILLATES  
 STATEMENT OF PRACTICAL TREATMENT  
 AVOID CONTACT WITH EYES AND SKIN. DO NOT BREATHE  
 FOG OR SPRAY MIST. FOR EYE CONTACT FLUSH WITH WATER  
 15 MINUTES. WASH SKIN WITH SOAP AND WATER. IF INGESTED  
 HAVE VICTIM BE STILL. CONTACT A PHYSICIAN OR POISON CONTROL  
 CENTER AT ONCE. DO NOT INDUCE VOMITING.  
 SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

MANUFACTURED BY  
CARMEL CHEMICAL CORP. 17303 US 31 N

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: IRRITANT IF SWALLOWED. DO NOT BREATHE SPRAY MIST, VAPORS OR FOG. AVOID CONTACT WITH SKIN, AND CLOTHING. WASH THOROUGHLY AFTER HANDLING. WHEN FOGGING WEAR A FULL FACE GAS MASK WITH PESTICIDE CANNISTER JOINTLY APPROVED BY THE MINE SAFETY AND HEALTH ADMINISTRATION (MSHA) AND THE NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH (NIOSH) FOR PESTICIDE APPLICATION UNDER PROVISIONS OF 30 CFR PART 11. REMOVE PETS BEFORE USING.

### ENVIRONMENTAL HAZARDS

THIS PESTICIDE IS HIGHLY TOXIC TO FISH. DO NOT APPLY DIRECTLY TO WATER OR WETLANDS (SWAMPS, BOGS, MARSHES, AND POTHoles). DRIFT AND KURDOFF FROM TREATED SITES MAY BE HAZARDOUS TO FISH IN ADJACENT WATERS. DO NOT CONTAMINATE WATER WHEN DISPOSING OF EQUIPMENT WASHWATERS.

### PHYSICAL OR CHEMICAL HAZARDS

DO NOT USE OR STORE NEAR HEAT AND OPEN FLAME

An insecticide for use in baking companies, bottling plants, breweries, candy factories, canneries, dairies, distilleries, flour mills, horse stables, hospital maintenance areas, kennels, macaroni companies, meat packing plants, nut processing companies, restaurants, rice mills, seed houses, spice mills, and other similar food processing plants

Kills accessible stages of Roaches, Crickets, Ants, Flour and Grain Beetles, Flour Moths, Grain Weevils, Brown Dog Ticks, Fleas, Spiders, House Centipedes and similar crawling insects on contact, also, Flies, Mosquitos and Gnats, and similar flying insects. Recommended for use in fogging applicators and can also be applied by electric sprayers and compressed air sprayers.

## DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling**

**FOGGING APPLICATION INDOORS:** After closing off all air currents, direct fog upwards at walls and ceilings so that as many insects as possible can be contacted with a direct vapor or fog. When application is made with the Dyna-Fog Applicator for flying insects, use one ounce of Carmel Formula F-5 per 3,000 cu. ft. of space. Doors and windows should be closed for at least 1 hour after fogging, then sweep up and destroy all dead and dying insects. Repeat when necessary.

**FOR EXPOSED STAGES OF ROACHES, CRICKETS, ANTS AND SIMILAR CRAWLING INSECTS:** Use at the rate of 1 ounce of Carmel Formula F-5 per 1,000 cu. ft. of space, first directing the fog nozzle close into cracks and crevices to wet the surfaces, then walk backward down the center aisle of the room swaying the insecticide fog applicator back and forth to blanket the entire cubical contents of the room. Length of exposure time is 1 hour with windows and doors closed. After this exposure time, the room should be ventilated—at least 1 hour before re-entering then sweep up and destroy all dead and dying insects.

### DIRECT CONTACT SPRAYING

For the control of Crickets, Roaches, Waterbugs, Brown Dog Ticks, Fleas, House Centipedes, Silverfish and Spiders, direct a wet spray toward infested areas—floors, cracks and crevices to hit the insects. Thorough application should be made repeating treatments as often as necessary. Apply CARMEL FORMULA F-5 with an efficient hand or power sprayer that will deliver medium size droplets. Repeated treatment is recommended whenever reinfestation occurs.

For controlling ants spray ants, ant trails, areas around door sills and window frames where the pests enter the premises. Repeat as often as necessary.

## STORAGE AND DISPOSAL

**Prohibitions:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. **Pesticide Storage:** Do not use, pour, spill or store near heat or open flame. Do not store with food, feed, drugs, or clothing. Store securely. Store to prevent cross-contamination of other pesticides and fertilizer. Store in original tightly closed container. Store above 35 F. **Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **Container Disposal—Plastic:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. **Metal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

If subjected to temperatures below 32 F, move container to warm storage until reaching average room temperature and thoroughly mix before use.

**NOTICE:** Seller makes no warranty other than specified on this label. The buyer agrees that the seller shall not be responsible or liable for injury to crop, soil, person, or property arising from careless or improper use or handling of the product. Please use in accordance with seller's directions.
