

DIRECTIONS

This concentrate should be diluted at a rate of 7 gallons of concentrate in 93 gallons of No. 2 Fuel Oil, or special "Fogging Oil" for use in Dyna-Fog Insecticide Applicators, or any thermal aerosol fogging machines.

Mosquitoes and Gnats: Envelop total area to be treated with a fog. Apply one gallon of diluted Carmel Formula MU-12 per acre (equivalent to approximately 0.24 lbs. actual Cythion per acre of marsh, swamp, [redacted], woodland, grass and foliage). Most successful fogging is done after sunset in the evening when the earth drops to a temperature less than that of the overlying air. This results in the fog hugging the ground and drifting widely through grass and foliage. Use prevailing wind direction to plan fogging operation. Start at farthest point down-wind and work into the wind at cross angle. If wind becomes strong enough to rapidly dissipate fog, discontinue operation until wind settles.

CARMEL MOSQUITO FOGGING INSECTICIDE CONCENTRATE

FORMULA MU-12

Contains Cythion® and Lethane 384
®Trademark. The Premium Grade Malathion
USDA Reg. No. 5011-120

A highly concentrated Cythion® and knockdown agent to be diluted with Fuel Oil, or special "Fogging Oil" for use in Dyna-Fog Insecticide Applicators, or any thermal aerosol fogging machines.

Kills Adult Mosquitoes and Gnats.

ACTIVE INGREDIENTS:

Malathion, O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate	44.7%
Beta-butoxy beta'-thiocyano diethyl ether	19.8%
Petroleum distillate	35.5%
TOTAL	100.0%

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for additional cautions.

Chemical Corporation
WESTFIELD, INDIANA 46074

CAUTION: Concentrate may cause skin damage. Do not get on skin, eyes or clothing. Use waterproof gloves and face shield or goggles when handling concentrate. Harmful if swallowed. Avoid breathing spray mist. In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water; for eyes, get medical attention. Avoid contamination of feed, foodstuffs and drinking water.

Do not use, pour, spill or store near heat or open flame.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

This product is toxic to fish, shrimp, crayfish, crabs and other aquatic invertebrates. Keep out of lakes, streams or ponds.

Rinse equipment and containers and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed by punching holes in them and burying with wastes.

NOTICE

Seller makes no warranty other than specified on this label. The buyer agrees that the seller shall not be responsible or liable for injury to crop, soil, person or property arising from careless or improper use or handling of the product. Please use in accordance with seller's directions.
