INNOVATIONS FOR SANITATION

STERISAN GERMICIDAL CLEANER AND ODOR COUNTERACTANT

CLEANS — DISINFECTS — SANITIZES — DEODORIZES

Sterisan Germicidal Cleaner and Odor Counteractant is a highly concentrated 4-way action synthetic detergent that cleans, disinfects, sanitizes and deodorizes. It is a hospital cleaner/disinfectant formulated with a dual quaternary ammonium disinfectant detergent and synergising builders. It is designed specifically for use where controlling the hazard of cross-infection from the inanimate environment is of prime importance. It is especially adaptable for use by hospitals, sanitariums, nursing homes, physicians, veterinarians, schools, food processors and wherever good sanitation is important. When used for sanitizing previously cleaned food contact equipment and utensils, it is effective in soft or hard (up to 500 ppm of hardness calculated as calcium carbonate) cold or hot water. It can be effectively used on floors, walls, sink tops, garbage pails, telephones, rest rooms, bedpans and operating rooms. It is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Pseudomonas aeruginosa* and the pathogenic fungi, *Trichophyton interdigitale*. When used on environmental inanimate hard surfaces at two (2) ounces per gallon of water, it is effective against Influenza A₂, Herpes Simplex, Adenovirus type 2, and Vaccinia Viruses.

DIRECTIONS FOR USE

TO CLEAN AND SANITIZE walls, floors, tables, refrigerators, stoves, sinks, bathroom fixtures, food utensils and garbage cans: Wash with solution containing one (1) ounce per gallon of water. Rinse food contact surfaces in potable (drinkable) water prior to reuse.

FOR HOSPITAL USE AND TO CLEAN, DISINFECT AND DEODORIZE walls, floors, tables, refrigerators, stoves, sinks, bathroom fixtures, food utensils and garbage cans: Wash with solution containing two (2) ounces per gallon of water. Rinse food contact surfaces in potable (drinkable) water prior to reuse.

If used for sanitization of previously cleaned food equipment or food contact items, limit the level of active quaternary to 200 ppm (2.8 ounces per 5 gallons of water). Treated food contact surfaces must be rinsed with potable water prior to reuse.

TO CLEAN AND SANITIZE animal and bird cages and kennels: Wash with solution containing one (1) ounce per gallon of water.

TO CLEAN, DISINFECT AND DEODORIZE animal and bird cages and kennels: Wash with solution containing two (2) ounces per gallon of water.

TO CLEAN AND DISINFECT combs, brushes, razors, scissors and rubber goods: Wipe articles clean and soak for ten (10) minutes in a solution containing one (1) tablespoonful per quart of water.

ACTIVE INGREDIENTS:

n-ALKyL (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chlorides 2.25%

n-ALKyL (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides 2.25%

Sodium Carbonate 3.00%

INERT INGREDIENTS: 92.50%

100.00%

PHENOL COEFFICIENTS

Salmonella typhosa 27

Staphylococcus aureus 42

Careful "Kemmy" says —

DANGER KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

Do not use with soap or other cleaners. Rinse empty container thoroughly with water and discard it.
