Carmel Chemical Corporation
17303 U.S. 31 North
Westfield, IN 46074

Attention: Webster J. Peterson

Gentlemen:

Subject: Sterisan Germicidal Cleaner and Odor Counteractant
EPA Registration No. 5011-137
Your Submission Dated November 18, 1987

The submission referred to above, submitted in connection with the Label Improvement Program Notice for Antimicrobial Products Used as Food Contact Surface Sanitizers, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a. Deletion of the food contact surface sanitizing claim from the label is in compliance with Section 178.1010 of Title 20 of the Code of Federal Regulations. However, all references to the food contact surfaces must be deleted; therefore, delete "food processors" from the label. Also, the statement "wherever good sanitization is important" is too promising and must be deleted.
 - b. Delete the entire Phenol Coefficients claim.
 - c. Sodium carbonate should be removed from the active ingredients in the ingredient statement and should be included with inert ingredients.
 - d. The DIRECTIONS FOR USE heading and misuse statement should be placed on the right panel after the first paragraph.
 - e. It is not necessary to highlight DO NOT USE WITH SOAP AND OTHER CLEANERS. Perhaps the statement should be placed after the misuse statement.

- 2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you have any questions concerning this letter, please call Mr. Robert Young at (703) 557-3966.

Sincerely yours,

John H. Lee
