Johnson GO-GETTER, the Working Foam bowl cleaner, is a better way to clean, disinfect, and deodorize toilet bowls and urinals:

Working Foam. Foam stays put on sides, up under rim. Controlled chemical action cuts rust, scum, stains, encrustations. Just swab GO-GETTER on; let the foam do the work . . . fast.

Go-Getter Swab and Cone-Guard. Exclusive. Foam GO-GETTER onto swab and clean—up under rim . . . along sides of urinal . . . down in bowl. Cone-Guard protects from splashing. Permits wringing swab without touching. Neat. Clean. Easy.

Handiest Package. The Johnson exclusive "Foam-Maker" cartridge turns GO-GETTER liquid into "Working Foam". Screw cartridge cap onto GO-GETTER bottle. Use handy clip to hold GO-GETTER Swab. Now everything you need is in one easy-to-carry unit. No cumbersome caddy.

Johnson GO-GETTER cuts washroom maintenance time. Other advantages: *Economical.* Foaming uses as little as one-third as much material as other methods. *Concentrated.* Foam is full strength—not diluted. Yet even when diluted with bowl water, GO-GETTER cleans and disinfects effectively. Won't corrode pipes and plumbing under normal conditions. Won't scratch. Non-fuming. Can be used in septic tank systems. *Disinfects.* Kills most disease-producing germs normally found on seats, in toilet bowls, in urinals.

WARNING: Harmful if swallowed. Irritant to eyes and mucous membranes. May cause burns. Do not get undiluted product on skin or in eyes. **External Antidote:** In case of contact with eyes or skin, wash thoroughly with water. If irritation persists, get medical attention.

Active Ingredients: 17.99% Phosphoric Acid and Hydrogen Chloride
Inert Ingredients: 82.01% Water and Nonylphenylpolyethoxyethanol

TO CLEAN AND DISINFECT BOWL

1. Use GO-GETTER Swab to lower water level in bowl by forcing over trap.
2. Press water from swab. The exclusive Cone-Guard makes this easy, neat.
3. Apply foam to swab. Lather bowl under rim, down sides, and in lower bowl level. Let stand 30 seconds or longer as necessary so GO-GETTER can do its work.
4. Flush and swab-rinse the bowl, particularly under rim, at water outlets and in the lower bowl level. Rinse swab and press out water.
5. Apply GO-GETTER to swab and lather seat and cover. Flush toilet. Swab-rinse seat and cover and dry. Rinse swab and press out water with Cone-Guard.

NOTE: Use of a hand mirror is helpful throughout the cleaning operation. Use a mirror before cleaning to check condition of the bowl . . . as cleaning progresses to guide the operation . . . and at the end to be sure there are no misses.

TO CLEAN AND DISINFECT URINAL

1. Apply foam to dry or damp GO-GETTER Swab. Lather in all recesses and along sides, especially around water outlets and at top. Let stand 30 seconds or longer as necessary so the foam can do its work.
2. Swab-rinse urinal being sure GO-GETTER has removed soil, stains, and encrustations especially in recesses, at top, sides and around water outlets.
3. Remove grid and swab inside drain pipe thoroughly with GO-GETTER.
4. Replace grid and flush urinal.

Internal Antidote: If swallowed, drink a teaspoon or more of magnesia, chalk, small pieces of soap softened with water, or whiting in milk, mucilage or raw egg white. Call a physician. After use on enamel ware or chrome-coated fixtures, rinse as soon as possible.

KLEEN-BRITE

RUST, LIME & SCALE REMOVER

CLEANS • DISINFECTS • DEODORIZES
WILL NOT HARM COTTON OR WOOL FABRICS

CAUTION

KEEP OUT OF REACH OF CHILDREN
SEE FURTHER PRECAUTIONS ON BACK PANEL

ACTIVE INGREDIENTS: 30.625 %
Phosphoric acid, n-alkyl (C14, C12, C16) dimethyl benzyl
ammonium chloride, ethanol.

INERT INGREDIENTS: 69.375 %
Water, ethylene glycol n-Butyl ether, octyl phenoxy poly-
ethoxy ethanol, dimethyl polysiloxane, essential oil.

A PRODUCT OF
VERSATEK CHEMICAL INDUSTRIES, INC.

4301 N. HULL INDIANAPOLIS INDIANA 46226

"Kleen-Brite" is a powerful non-fuming Rust, Lime, Scale and Tarnish remover containing 5,000 ppm n-alkyl, dimethyl benzyl ammonium chloride disinfectant to aid in the reduction of most harmful bacteria. Silicone is included which leaves a hard, glistening protective barrier to cleaned surfaces. "Kleen-Brite" is excellent for and easy to use in cleaning and disinfecting Toilet Bowls, Urinals, Porcelain Sinks, Bathtubs, Drinking Fountains, Stainless Steel Equipment, Chrome, Brass, Copper, Vitreous Tile, Enamel, Painted, Lacquered or Varnished Surfaces, Coffee Urns and Refrigerators. HARMLESS TO SEPTIC TANKS WHEN USED AS DIRECTED.

Careful "Kemmy" says . . .

HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN OR EYES. CAUSES SKIN IRRITATION. IN CASE OF CONTACT, FLUSH SKIN OR EYES WITH PLENTY OF WATER FOR AT LEAST 15 MINUTES; FOR EYES GET MEDICAL ATTENTION. AVOID CONTAMINATION OF FOODS. DO NOT USE ON MARBLE OR TERRAZZO.

FOR DAILY CLEANING OF BATHTUBS, WASH BASINS, DRINKING FOUNTAINS, ETC. Dilute "Kleen-Brite" with 3 or 4 parts water. Saturate cloth or sponge with solution and wipe over surface to clean. Use full strength for stubborn stains. Rinse with clear water after cleaning.

TOILET BOWL CLEANING — To remove calcium and rust incrustations, discolorations and other deposits: Flush toilet, then force water over trap using a swab. Press excess water from swab and apply cleaner full strength to swab. Swab bowl, including the flush ring which will remove rust and stains.

URINAL CLEANING — Flush urinal, apply cleaner to swab full strength and rub away discolorations and stains. Pour one or two ounces into urinal drain and allow to stand several minutes to remove odor in trap.

FOR CLEANING TILED SHOWERS AND SWIMMING POOLS, ENAMEL, PAINTED, LACQUERED OR VARNISHED SURFACES, COPPER, CHROME OR BRASS — Dilute cleaner with 2 parts water and apply solution with cloth, sponge or brush. For stubborn stains use full strength. Rinse with clear water after cleaning. **TO CLEAN SHOWER SPRAY HEADS AND AERATORS** — Remove from water supply and soak component parts in above solution for 10 or 15 minutes.

TO CLEAN STAINLESS STEEL EQUIPMENT, COFFEE URNS, COUNTER TOPS, REFRIGERATORS, ETC. — Dilute cleaner with 3 parts water and apply solution with soft cloth, sponge, or brush to clean. Rinse thoroughly with clear water.
