**Insecticide Applicator Concentrate  
for BEEF CATTLE**

## DIRECTIONS

It is necessary to dilute this product before placing it in the insecticide applicator, cattle oiler reservoir, saturating cloth, burlap, cotton, felt or oiler parts. The oiler should be located where cattle loaf or congregate so that they may have access to it at all times.

## NON-WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Do not reuse empty containers. Wash thoroughly with water and detergent. Discard in safe place.

## ACID INHIBITED WITH INHIBITOL

An insecticide concentrate especially compounded for the WIK Applicator and other mechanical livestock oilers.

### ACTIVE INGREDIENTS:

|                                       |                        |
|---------------------------------------|------------------------|
