DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS

To repel horn flies and face flies with the Tox-O-Wik Applicator and the Tox-O-Wik Face Fly Applicator. Dilute one gallon of this product with four gallons of kerosene before placing it in the applicator reservoir. It will take a few minutes for the canvas parts to become saturated. The applicators should be located where the livestock loaf or congregate so that they may have access to it at all times. Repeated applications will build up repellency in those areas of the animal treated with the insecticide repellent.

NON-WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

STORAGE AND DISPOSAL

Storage. Store container in a cool, dry area. Keep container closed. Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Disposal. Do not reuse empty containers. Triple rinse with water, puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
