E-VAP CORP., MUSKEGON, MICH. 49443

ACCEPTED

5-3-71

UNDER THE FEDERAL POISON CONTROL ACT
FOR LIQUID POISON REGISTERED UNDER NO. 5094-1

APR 19 1971

E-VAP ROOT KILLER is field proven to be most effective against root growth in **SEWER LINES, DRAIN FIELDS.**

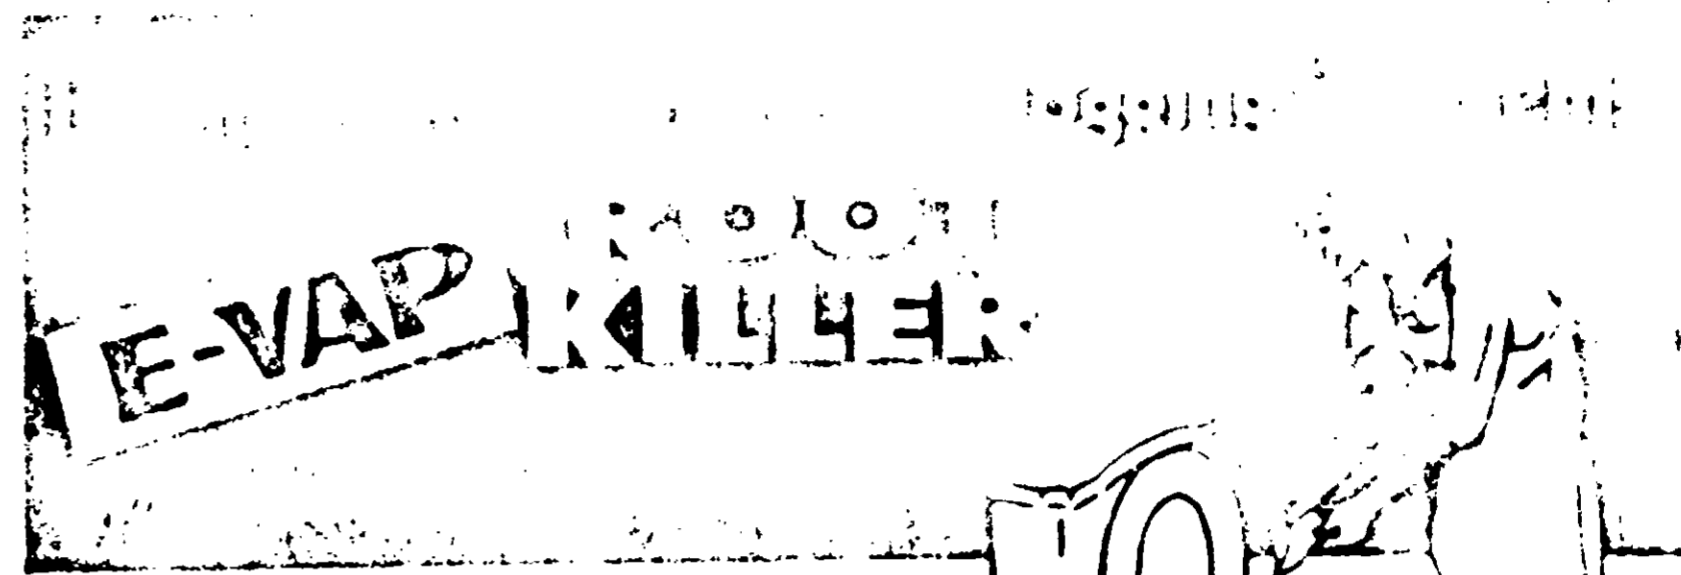

This is the reason **E-VAP CORP.** can give you the unconditional guarantee on the back page of this folder.

Roots are destroyed and sealed off at the edge of the container. These roots will not grow again. The tree or shrub itself is not harmed.

E-VAP ROOT KILLER is NOT designed to clear channels clogged with grease, debris or faulty plumbing. It is specifically designed to kill the small hairlike roots before they become large enough to cause clogging.

DIRECTIONS

SEWER LINES - CESSPOOLS--Flush contents of package down drain. Follow with another flushing to insure distribution. Give treatment at night before retiring or when flow is the lowest. Do not use when flow is high.

Harmless to Septic Tanks—Bacteria—Plumbing. Will not affect Tree Growth. Read **E-VAP'S** unconditional guarantee insuring you from root clogging and its dangers.

DRAIN FIELDS—Pour contents of package into outside entrance to drain field. Flush into field with hose or with buckets of water. Do not introduce **E-VAP ROOT KILLER** to system when flow is high.

EXTREME CLOGGING—Can be treated by field by package of **E-VAP ROOT KILLER** about every 6 months as a preventive of future growth. It IS necessary to have **SOME FLOW** for **E-VAP ROOT KILLER** to reach the roots.

WARNING

KEEP OUT OF REACH OF CHILDREN

While **E-VAP ROOT KILLER** can be handled safely, it is harmful or fatal if taken internally.

Because of **E-VAP ROOT KILLER'S** low toxicity, it should never be introduced through the sewage treatment plant drain.
