SAFETY

BRAND

FORMULA A-10

EGG WASHING COMPOUND

Use in Brush, Oscillating or Propeller-type Egg Washers

SOFTENING DETERGENT - LOW SUDSING

Do not use in Air-Action Machines

MECHANICAL EGG WASHERS

When washing with A-10, clean machine thoroughly. Especially when washing with dried detergent. Do not use hot water.

When washing with A-10, do not use hot water. Eggs not washed in hot solution will become dry and may deteriorate. Wash in cold water. Use Egg Washers that are operated by the hand or power of your own choice.

MANUAL OR TUB-WASHING

Wash eggs in warm water (not over 120 degrees) with a small amount of A-10. Rinse with clean water. Avoid use of any cleaning solution.
