

DE VERE HELP SANITIZER

HELP is a sanitizer for the last tank. HELP leaves no film on glasses. The rich creamy head on beer lasts longer when HELP is used in the last tank. Even on the first glass of beer, a collar of foam remains after each swallow. Glasses will drain perfectly and there will be no water spotting. When used as directed, HELP is tasteless and odorless.

Approved under the regulations of the Wisconsin State Board of Health.

U.S.D.A. Reg. No. 5174-11
