**Repels Mosquitoes
Each Stick Lasts 3-4 Hours
Use 1 Stick every 100 Sq. Ft.
Place sticks approximately every 10 to 12 feet
Most Effective in Little or No Breeze**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For outdoor use only. Cover exposed food to avoid contamination. Do not allow burning sticks to contact flammable objects, materials or surfaces.

Remove a stick from the box and ignite the tip until it flames. Invert the stick to ensure the entire end is well started. When this occurs, blow out the flame. It will continue to burn without a flame but will create smoke which will repel mosquitoes. Insert the bottom end of the stick into the ground or a bucket of sand making sure the stick stands upright.

Place sticks approximately every 10 to 12 feet apart around the perimeter of the area to be protected. Sticks will be most effective when there is little or no breeze. Depending on air movement, sticks will last 3-4 hours. If a crack appears in the body of the stick it is simply drying. This is normal and in no way impedes effectiveness.

To extinguish, gently knock off glowing end and put the tip out by inserting in dirt or sand.

Storage: Store in a cool, dry, preferably locked area inaccessible to children and pets and away from sources of heat or ignition. **Disposal: If empty:** Non-refillable container; do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. **Used sticks:** Put ashes and stick stub in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Avoid prolonged inhalation. Do not touch lit end of stick. Do not use indoors. Thoroughly wash with soap and water after use.

First Aid

If Inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
-------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-800-{appropriate number} for emergency medical treatment information.]

{Note: The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain do not blow or wash pesticide away from the treatment area.
