

**USE  
DIRECTIONS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR RESTROOMS AND GENERAL DISINFECTING:** Use on hard, non-porous, non-metal surfaces, such as tile, plastic, quartz, porcelain, enameled metal, chrome, enamel, and finished wood surfaces. In washrooms, appliances, and furnishings in schools, hospitals, offices, homes, public centers, and industrial areas.

**CLEANING AND DEODORIZING:** Wash surfaces to be cleaned with water. For cleaning and deodorizing, use 5 to 8 ounces of THIS PRODUCT per gallon of water. Cleaning may be accomplished with a hand brush, sponge, mop, wet vacuum system, or mechanical sprayer, etc. After cleaning, remove suspended soils with plain water. The residue is picked up by water with a mop or sponge, and removed to drain or ploth.

**DISINFECTING:** Surfaces to be disinfected should be pre-cleaned as directed above. Then apply 8 to 16 ounces of THIS DISINFECTANT per gallon of water on the surface to be disinfected. The disinfectant must contact the surface for 10 minutes. The surface must be rinsed with plain water. Rinse the surface with clear water or wipe with a clean damp cloth.

**FOR CLEANING AND DEODORIZING OF GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES, AND OTHER GARBAGE HANDLING EQUIPMENT:** This is especially important to pre-clean in order for the disinfectant to perform properly. The application method is the same as on surfaces of THIS PRODUCT. Rinse with plain water.

**FOR CLEANING OF WALLS, FLOORS AND CEILING:** In ALL WORK AREAS, use 8 to 16 ounces per gallon. The use of rubber gloves is recommended when doing confined area hand work.
