BIO-LAB, INC. / DECATUR, GA.

NET CONTENTS 1 U.S. QUART

EACH GRADUATION REPRESENTS APPROXIMATELY 1 OZ.

<b>ACTIVE INGREDIENTS:</b>	
Alkyl (C <sub>12</sub> 90%; C <sub>14</sub> 5%; C <sub>16</sub> 5%) dimethyl dichloro- benzyl ammonium chloride	35%
Alkyl (C <sub>12</sub> 90%; C <sub>14</sub> 5%; C <sub>16</sub> 5%) dimethyl ethyl am- monium bromide	5%
<b>TOTAL ACTIVE INGREDIENTS</b>	<b>40%</b>
<b>INERT INGREDIENTS:</b>	
Water, Ethylenediaminetetraacetic acid, tetrasodium salt, color	60%
<b>TOTAL INGREDIENTS</b>	<b>100%</b>

This Algicide is formulated to complement swimming pool water being treated with normal chlorine systems. It is especially effective against growth of algae and, being non-volatile, aids in maintaining pool water clarity and sparkle. The residual effectiveness of algicide tends to stabilize the total chemical treatment system.

This Algicide is compatible with all chemicals normally used in swimming pool maintenance; however, in its concentrated form this chemical should not come in contact with high concentrations of chlorine. **DO NOT MIX ALGICIDE AND CHLORINE TOGETHER** when adding to the pool. These chemicals should be handled separately. This Algicide is economical, efficient and stable. It is non-corrosive and non-staining in use dilutions. **CONTAINS POOL MAGNET.**

### DIRECTIONS

For an initial application or when pool water is changed, use one quart per 25,000 gallons of water.

For maintenance, use one ounce per week per 5000 gallons of water. After each rain of consequence, add one ounce per 5000 gallons of water in addition to the above amount.

The appropriate amount of this algicide should be added by pouring directly into the pool. More rapid distribution will be achieved by pouring a little of the specified amount into several areas of the pool. Recirculation or swimming activity will assure rapid dispersion.

**CAUTION:** Avoid direct contact with food or food products. Avoid getting concentrate in eyes or on skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Harmful if swallowed.

### TO DETERMINE POOL CAPACITY

**RECTANGULAR POOLS** - Length times width times average depth (in feet) times 7.5 equals gallons.

**ROUND AND OVAL POOLS** - Average diameter times average diameter times average depth (in feet) times 5.9 equals gallons.

**KEEP OUT OF REACH OF CHILDREN**
