Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 5185-130

ACTIVE INGREDIENT:
Alkyl (C₁₄, 58%; C₁₆, 28%; C₁₂, 14%)
dimethyl benzyl ammonium chloride 10.0%
INERT INGREDIENTS: 90.0%
TOTAL INGREDIENTS: 100.0%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

STATEMENTS OF PRACTICAL TREATMENT: IF CONTACT WITH EYES OCCURS:
Immediately flush with cold water for at least 15 minutes. Then get
immediate medical attention. IF CONTACT WITH SKIN: Wash off excess
chemical and flush skin with cold water for at least 15 minutes. If irritation
persists, get medical attention. IF INHALED: Remove to fresh air. If
breathing is difficult, have trained person administer oxygen. If not
breathing, give artificial respiration. Call a physician immediately. IF
SWALLOWED: Drink large amounts of water. DO NOT induce vomiting. Avoid
alcohol. Never give anything by mouth to an unconscious person. Call a
physician or poison control center immediately. NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage. IN
CASE OF MEDICAL EMERGENCY, CALL 1-303-623-5716.

See back panel for additional precautionary statements.

FOR SWIMMING POOLS ALGAE PREVENTOR:

This product is formulated to complement swimming pool water being treated with traditional chlorine or bromine systems. It is effective in preventing most common algae growth and aids in maintaining pool water clarity.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. In outdoor chlorine treated pools, add stabilizer to establish a minimum level of 40-50 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add a stain and scale inhibitor to prevent staining of pool surface due to metal. Maintain sanitizer residual in accordance with label directions found on your sanitizer of choice. When using other products as outlined in directions for this product, always follow directions on those products.

INITIAL APPLICATION: For an initial application, pour directly into pool at a rate of 1/2 gallon of this product per 25,000 gallons of water (2 ppm). More rapid distribution will be achieved by pouring a portion of the specified amount into several areas of the pool until all of the required quantity has been added. Recirculation will assure rapid dispersion.

MAINTENANCE: Pour directly into pool at a rate of 1 quart per 50,000 gallons (3.2 oz. per 5,000/0.5 ppm) of water every 5-7 days depending on weather and use factors. After each rain of consequence, add 1 quart per 50,000 gallons (3.2 oz. per 5,000) water. Even when the pool may not be in use for periods of time, algicide additions should be made since a heavy accumulation of algae growth is difficult to remove. The appropriate amount of this product should be added by pouring a portion of the specified amount into several areas of the pool until the required quantity has been added. Recirculation will assure rapid dispersion.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS KEEP OUT OF REACH OF CHILDREN. DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing fumes. Remove and wash contaminated clothing before reuse. For skin or eye contact, or if fumes are inhaled, immediately follow statements of practical treatment on front label panel.

PHYSICAL OR CHEMICAL HAZARDS Do not mix with other chemicals. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with other chemicals may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

OPTIONAL INFORMATION TO BE ADDED IF SPACE ALLOWS:

TO DETERMINE POOL CAPACITY: Rectangular Pools - length times width times average depth (in feet) times 7.5 equals gallons. Round and Oval Pools - average diameter times average diameter times average depth (in feet) times 5.9 equals gallons.
