SPOT KILL®  
Algae Destroyer

ACCEPTED  
5185-194  
APR 2 1981  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
recommended for the pesticide  
registered under  
Reg. No.

ACTIVE INGREDIENT:  
Sodium dichloro-s-triazinetrione . . . . . 99%  
INERT INGREDIENTS: . . . . . 1%  
(available chlorine 60%)

## KEEP OUT OF REACH OF CHILDREN DANGER

**PRACTICAL TREATMENT (FIRST AID)** If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.  
If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

MANUFACTURED BY  
**BIO-LAB, INC., Decatur, Georgia 30031 USA**  
**GRANULAR NET CONTENTS: 2 Lbs. (907 g.)**

Pre-dissolve in water to prevent staining of vinyl liners.  
For use in vinyl, painted, fiberglass or color plaster surface pools.

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT:** Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

SPOT KILL ALGAE DESTROYER kills all types of pool algae. When used as directed, SPOT KILL ALGAE DESTROYER will rid your pool of unsightly algae spots.

**DIRECTIONS FOR USE** It is a violation of federal law to use this product in a manner inconsistent with its labeling.  
The pH of the pool water should be adjusted to 7.4 - 7.6 before applying SPOT KILL ALGAE DESTROYER.

Shut off filter pump, brush wall-clinging algae vigorously, then allow pool water to become stationary. When the pool is not in use (preferably at night), sprinkle SPOT KILL ALGAE DESTROYER where algae growth appears, both along pool walls and over surface of water. For heavy algae growth, use 21 oz. per 10,000 gallons of water. For light algae growth, use 11 oz. per 10,000 gallons of water. Turn on pump after six hours. Do not use pool until chlorine residual falls below 3 ppm as determined by a suitable test kit.

Eight to eighteen hours after treatment, remove dead algae growths by brushing or scraping. If visible, living algae is still present after brushing, repeat treatment with SPOT KILL ALGAE DESTROYER.

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amount of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.

**TO DETERMINE POOL CAPACITY:** Rectangular Pools — length times width times depth (in feet) times 7.5 equals gallons.  
Round and Oval Pools — Long diameter times short diameter times average depth (in feet) times 5.9 equals gallons.
