EPA Reg. No. 5185-196

ACCEPTED  
WHOLESALE  
BY EPA

MAY 7 1966

5185-196

**DIRECTIONS**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**TO OPERATE:** Remove cap. Hold container in upright position to spray. Press nozzle directed at insects or area to be sprayed. For best results, spray infested surfaces until wet.

**ANTS, RESISTANT ROACHES, SCORPIONS, WATERBUGS, BLACK WIDOW SPIDERS, CRICKETS, SILVERFISH:** Spray directly on insects where possible. Also spray their trails and wherever insects might congregate such as under sinks, drainboards, in cabinets, cracks and crevices, on baseboards, around door sills, window frames, garbage cans, garages and outhouses. For ants, also spray into their nests. Repeat as necessary.

**FLIES, WASPS, JUNE BUGS, GNATS, CLOVER MITES:** To reduce annoyance from these insects, spray outside surfaces of screens, doors, window frames and other places where these insects may enter. Also treat surfaces where these insects alight or congregate such as on porches, in garages and outhouses and around outside light fixtures. Also treat around outside house foundations.

**FLEAS (Outside Dwellings):** Apply as a residual spray around outside dwellings to flea-infested areas and around outside pet quarters and animal buildings. Repeat as necessary.

**CARPET BEETLES:** Apply as spot treatment to localized infested floor areas and baseboards. Spray directly into cracks under carpets and treat underside of carpets as well as infested areas to top surface. Also treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

**EARWIGS:** Apply as a residual spray to wet infested areas around damp, shady spots, also around rocks, boards and typical hiding places, contacting insects where possible. Repeat as necessary.

**DISPOSAL:** Replace cap and discard containers in trash. Do not incinerate or puncture.

**STORAGE:** Store in a dry, cool, locked area, away from sources of ignition.

**OTHER AVAILABLE STATEMENTS  
(AVAILABLE TO CONTRACTORS AND  
OTHER ANIMALS)**

**Warning:** Harmful if swallowed. Avoid breathing spray mist. May be absorbed through skin. Avoid contact with skin. Avoid contamination of feed and feedstuffs, utensils, dishes or drinking waters. Do not use on household pets or humans. Remove fish bowls and bird cages from room during spraying. Do not spray on plastic, asphalt tile or furniture.

Do not allow children to handle or apply this product. Children and pets should not be allowed in treated areas until sprayed surfaces are dry.

**ENVIRONMENTAL HAZARDS:**  
This pesticide is toxic to fish. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

**PHYSICAL OR CHEMICAL HAZARDS:**  
**Warning: FLAMMABLE:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F. may cause bursting.

Attention: Alan C. Sumner

Gentlemen:

Subject: Amendment - Comply with Lindane Intent to Cancel  
Bio-Sec Ant & Roach Killer  
EPA Registration No. 5185-196  
Application Dated November 29, 1983

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Revise the Statement of Practical Treatment to read as indicated below. We suggest this statement; however, if your toxicological data suggest otherwise, please submit a draft Statement of Practical Treatment for prior approval:

If swallowed - Call a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia.

If inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin - Remove contaminated clothing and wash affected areas with soap and water.

If in eyes - Flush eyes with plenty of water. Call a physician immediately.

Note to Physician - Solvent presents aspiration hazard. Gastric lavage is indicated if material was taken internally. If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-Pam is also antidotal and may be administered in conjunction with atropine.

5/11/84  
EPA

2. Add the following use precaution to the label:

Do not use this product in the edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Submit five (5) copies of your revised label printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until ~~June 15~~<sup>July 15</sup>, 1984. After that date, all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.

Sincerely yours,

George W. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch  
Registration Division (78-767)
