

(of 2)

Read entire label. Use strictly in accordance with label cautions, warnings and directions.

Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers.

GENERAL DIRECTIONS. Bio-Sec Yard & Patio Insect Spray is a fast acting, short lasting insecticide that controls a wide variety of insects outside and inside the home. Refer to the table below for detailed directions. Repeat applications as necessary.

Mix 4 tsp. Bio-Sec Yard and Patio in 1 gallon water, unless otherwise specified. For best results, use a garden hose sprayer.

PATIOS, YARDS AND OTHER OUTDOOR LIVING AREAS

— Flies, Mosquitoes, Gnats, Brown Dog Ticks, Roaches, Clover Mites, Ants — Spray patio, house foundations, under porches, lawn, along fences and shrubbery areas about 1 hour before cookout. AVOID SPRAYING ROSES, SPIREA, CHERRIES, as some injury may occur. Apply at a rate of 1/3 to 1/2 tablespoons per 3 gallons of water.

HOUSEHOLD INSECTS — House Flies, Fruit Flies, Brown Dog Ticks — 8 Tablespoons per gallon water. Apply as a coarse spray or with a paint brush around window frames, base boards under sinks, stove and refrigerator and other areas frequented by pests. Avoid contamination of food, dishes, utensils and water. Do not allow children in treated areas until surfaces are dry.

LAWNS — Lawn Moth Larvae, Sod Webworms, Armyworms, Leafhoppers, Clover Mites, Thrips, Ants, Brown Dog Ticks — One cup (8 fl. ozs.) in 15 gallons water to treat 1,000 sq. ft. of lawn. Mow lawn and water well 1 to 2 days before treatment. Treat lawn in afternoon or early evening. Do not water lawn for 2 to 3 days following treatment. Keep children and animals off treated areas until dry.
