**KEEP OUT OF REACH OF CHILDREN**  
(SEE FIRST AID AND OTHER PRECAUTIONS  
ON BACK PANEL)

E.P.A. REG. NO. 5185-206

NET WEIGHT

25 POUNDS

Recommended for sanitizing in dairies, dairy processing plants, food processing plants and other related areas.

Dissolve 1 oz. (2 tablespoonfuls) in 10 gallons water for 100 ppm available chlorine solution, or 1 tablespoonful in 5 gallons water.

All equipment, parts and utensils must be thoroughly cleaned before sanitizing. For all utensils and equipment, use 100 ppm solution to sanitize immediately before use. Allow sanitizing solution to remain in contact with surfaces for 2 minutes.

The sanitizing solution may be applied by spraying, soaking or recirculation.

Follow the recommendations of your local health department.

**DANGER: KEEP OUT OF THE REACH OF CHILDREN.** Harmful if swallowed. Do not take internally. May cause burns or damage to the eyes. Do not get in eyes or on skin. Avoid breathing dust. If contact with eyes occurs, flush with plenty of water for 15 minutes and get medical attention. If contact with skin occurs, flush with water. Avoid contamination of food.

**FIRST AID: Internal**— Call a physician. Drink raw egg whites, milk or gruel, follow with emetic (tablespoonful mustard in glass of water).

**DANGER:** Keep package closed. Store in a cool dark place. Strong oxidizing agent. Do not allow to come into contact with acids, combustible or oxidizable material. Will burn with evolution of chlorine and equally toxic gases. Do not mix with cleaners or other sanitizers. If spilled, flush with hose.

Rinse empty container thoroughly with water and discard it.
