LOK UP

WINTERIZER ALGAEICIDE

RECEIVED
 15 FEB 1974
 Esthetic Research
 Division, EPA

ACTIVE INGREDIENTS:

Alkyl (C ₁₄ , 90%; C ₁₂ , 5%; C ₁₆ , 5%) dimethyl dichlorobenzyl ammonium chloride	35%
Alkyl (C ₁₄ , 90%; C ₁₂ , 5%; C ₁₆ , 5%) dimethyl ethyl ammonium bromide	5%
Total Active Ingredients	40%
INERT INGREDIENTS:	60%
TOTAL INGREDIENTS	100%

DANGER
 KEEP OUT OF REACH OF CHILDREN
 (See back panel for additional precautions
 and First Aid statement.)

Manufactured by:
BIO-LAB, INC., Decatur, Georgia

EPA Reg. No. 5185-214 Net Contents: 1 U.S. Quart

EACH GRADUATION REPRESENTS APPROXIMATELY 1 OZ.

LOK-UP is to be used as an aid in the prevention of algae in swimming pools during the winter months, when the pool may be taken out of service.

In its concentrated form, this chemical should not come in contact with high concentrations of chlorine. **DO NOT MIX ALGICIDE AND CHLORINE TOGETHER** when adding to the pool. These chemicals should be handled separately. LOK-UP is economical, efficient and stable. Contains POOL MAGNET.

DIRECTIONS

1. Test water for proper balance of minerals, pH and presence of metal ions. Take corrective action if necessary.
2. Oxidize water soluble swimmer waste and super-chlorinate the pool using one bag of BURN OUT per 10,000 gallons of water. Apply at night when pool is not in service. Allow pump to circulate pool water overnight.
3. The next morning following the use of BURN OUT, apply LOK-UP Winterizer directly to the pool water, pouring along the side walls. Use one quart per 10,000 gallons of water and allow to circulate 2-4 hours.
4. Cut off pump and drain system to avoid freeze damage. Install pool cover if available. Examine pool once monthly for any visible evidence of algae growth. Repeat treatment if a need is indicated.

DANGER: KEEP OUT OF REACH OF CHILDREN. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

Rinse empty container thoroughly with water and discard it.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

TO DETERMINE POOL CAPACITY

Rectangular Pools—Length times width times average depth (in feet) times 7.5 equals gallons.

Round and Oval Pools—Long diameter times short diameter times average depth (in feet) times 5.9 equals gallons.
