

This DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

This DISINFECTANT is also an excellent deodorant. Use it to control odors, especially those that are microbial in nature.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to porcelain, enameled surfaces, glass, tile, plastics and most common metals.

WARNING

KEEP OUT OF REACH OF CHILDREN. Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Avoid alcohol. Call a physician.

Rinse empty container thoroughly with water and discard it.

Bio-Guard®

A PRODUCT OF BIO-LAB, INC. DECATUR, GA. 30031

M-10 DISINFECTANT

Phenol Coefficient using A. O. A. C. method

- Salmonella typhosa — 10
- Staphylococcus aureus — 14
- Escherichia coli — 8

ACTIVE INGREDIENTS:

Alkyl (C ₁₄ , 58%; C ₁₆ , 28%; C ₁₂ , 14%)	
dimethyl benzyl ammonium chloride	2.50%
Isopropanol	2.50%
Methyl salicylate	0.62%

TOTAL ACTIVE INGREDIENTS 5.62%

INERT INGREDIENTS: 94.38%

TOTAL INGREDIENTS 100.00%

WARNING

KEEP OUT OF REACH OF CHILDREN

(See side panel for additional precautions and First Aid Statement.)

NET CONTENTS: _____

DIRECTIONS

Use in hospitals, public rooms, homes, restaurants, barber and beauty shops and pet animal quarters for disinfecting floors, walls, tables, counter tops and other porcelain, enamel, tile, plastic or vinyl surfaces or furnishings.

FOR CLEANING AND DISINFECTING

1. Remove gross surface soils by sweeping, vacuuming, dusting or flushing with water.
2. For cleaning and disinfecting non-porous surfaces (glass, polished metal, smooth tile, plastic, smooth enameled surfaces, glazed ceramics), use a solution of 4 ounces of this disinfectant per gallon of water. For porous areas (poorly finished wood, pitted or rough metal, unglazed ceramics and tile), areas difficult to clean or contagious disease areas, make a disinfecting solution using 8 ounces of this disinfectant per gallon of water.
3. The disinfecting solution may be applied with a clean mop, sponge or brush. The disinfecting solution may also be applied mechanically through low pressure sprayers having nozzles that will deliver soft, coarse sprays to surfaces. Apply to a wetting concentration. Surfaces contacting food must be thoroughly rinsed with potable water after treatment. Otherwise, rinsing is not required.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 12 ounces per gallon of water. Spray or wet all surfaces.
