

D-S CLEANER AND SANITIZER

for Food Processing Plants

INGREDIENTS

Sodium carbonate
Sodium hypochlorite
Sodium hydroxide
Water
Sodium metasilicate
Sodium silicate
Sodium borate
Sodium phosphate
Sodium acetate
Sodium formate
Sodium citrate
Sodium gluconate
Sodium lactate
Sodium malate
Sodium succinate
Sodium tartrate
Sodium bitartrate
Sodium fumarate
Sodium maleate
Sodium fumarate
Sodium maleate
Sodium fumarate
Sodium maleate

PREPARATION

DANGER

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS: Use 1/2 oz. or 2 grams of hot water wet surfaces thoroughly and allow to sit two minutes to loosen soil. Brush scrub all equipment. Rinse with hot water.

Excellent for mixers, boring tables, choppers, walls and floors, smokehouses and smokehouse equipment should be similarly cleaned.

Regular use of D-S will result in clean sanitary equipment. This will help reduce spoilage and longer shelf life for products.

PRECAUTIONS: Do not use on chrome, brass, copper, lead, zinc, tin, iron, steel, aluminum, or other metals. Do not use on wood, stone, or concrete.
