

ACCEPTED
FEB 18 1975
 Under the Federal Insecticide,
 Fungicide, and Rodenticide Act,
 as amended, for the pesticide
 EPA Reg. No. 5185-234
 registered under 5185-234

This DISINFECTANT is effective against a wide variety of gram positive and gram negative bacteria and pathogenic fungi. This DISINFECTANT is also a residual bacteriostat on environmental hard surfaces, inhibiting the growth of odor producing bacteria in areas of high moisture and on moist surfaces when used regularly and as directed.

This DISINFECTANT is also an excellent deodorant. Use it to control odors, especially those that are microbial in nature.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non corrosive and non staining to porcelain, enameled surfaces, glass, tile, plastics and most common metals.

CAUTION:

Harmful if swallowed. Avoid getting in eyes or on skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Avoid contamination of food or foodstuffs. Avoid breathing spray mist.

Rinse empty container thoroughly with water and discard it.

EPA Est. No. 5185-GA-1

DIRECTIONS:

Use in hospitals, public rooms, homes, restaurants, barber and beauty shops, restrooms, and pet animal quarters for general disinfection of walls, floors, glass, metal, plastic, porcelain, synthetics and finished wood surfaces and furnishing.

FOR DISINFECTION:

1. Flush away surface soils with water where possible.
2. Clean with a solution of 4 ounces of DISINFECTANT per gallon of water.
3. Rinse with clear water.
4. Apply disinfecting solution so as to thoroughly wet all surfaces. For non porous, easily cleaned areas, make a disinfecting solution of 4 ounces of DISINFECTANT per gallon of water. For porous surfaces, make a disinfecting solution using 6 ounces of DISINFECTANT per gallon of water.
5. Surfaces contacting food must be scrubbed thoroughly with detergent and rinsed with potable water prior to reuse.

FOR DEODORIZING:

For garbage cans and similar refuse areas, use a solution of 12 ounces per gallon of water. Spray or wet all surfaces.

FOR MILDEW CONTROL:

Use on enamel, porcelain, tile and plastics to control mildew. Follow directions for disinfection. Repeat treatment every seven days, or when new growth appears.
