

Bio-Guard

MF-44 DETERGENT-DISINFECTANT SANITIZER DEODORANT-PATHOGENIC FUNGICIDE

Mint Fragrant

Phenol Coefficient (using A O A C method)

- Staphylococcus aureus - 50
- Salmonella typhosa - 33

ACTIVE INGREDIENTS:

Alkyl (C ₁₄ , 58%; C ₁₆ , 28%; C ₁₂ , 14%)	
Dimethyl benzyl ammonium chloride	5.00%
Isopropanol	4.00%
Methyl salicylate	1.00%
Total Active Ingredients	10.00%

INERT INGREDIENTS:	90.00%
Total Ingredients	100.00%

WARNING

KEEP OUT OF REACH OF CHILDREN

(See side panel for additional precautions
and First Aid Statement.)

Bio-Lab, Inc.

Decatur, Georgia

EPA Reg. No. 5185-236

Net Contents: _____

EPA Est. No. 5185-GA-1

This DISINFECTANT is effective against a variety of gram-positive and gram-negative bacteria and pathogenic fungi. This DISINFECTANT is also a residual bacteriostat on environmental hard surfaces, inhibiting the growth of odor producing bacteria in areas of high moisture and on moist surfaces when used regularly and as directed.

This DISINFECTANT is also an excellent deodorant. It is especially advantageous to control odors that are bacterial in origin.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant mint fragrance.

WARNING

KEEP OUT OF REACH OF CHILDREN. Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk or raw egg white. If these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

Rinse empty container thoroughly with water and discard it.

DIRECTIONS

For disinfection of hard surfaces, floors, walls, glass, metal, porcelain, synthetics and finished wood surfaces and furniture, use:

FOR DISINFECTION

1. Wash surface with water where possible.
2. Clean with a solution of 2 ounces of DISINFECTANT per gallon of water.
3. Rinse with clear water.
4. Apply disinfecting solution so as to thoroughly wet all surfaces. For non porous, easily cleaned areas, make a disinfecting solution of 2 ounces of DISINFECTANT per gallon of water. For porous surfaces, areas difficult to clean, or contagious disease areas, make a disinfecting solution using 3 ounces of DISINFECTANT per gallon of water.
5. Surfaces directly contacting food must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 6 ounces per gallon of water. Spray or wet all surfaces.

FOR MILDEW CONTROL

Use on enamel, porcelain, tile and plastics to control mildew. Follow directions for disinfection. Repeat treatment every seven days, or when new growth appears.
