

THIS DISINFECTANT reduces the surface tension of water, improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The excellent wettability of THIS PRODUCT improves the penetration of the aqueous solution into areas that otherwise might not be reached.

THIS DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant mint odor.

THIS DISINFECTANT mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals.

Precautionary Statements Hazard to Humans and Domestic Animals

WARNING

Keep Out of Reach of Children. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

Storage and Disposal

- Do not contaminate water, food, or feed by storage or disposal.
- Do not store on side.
- Avoid creasing or impacting of side walls.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

Metal Container: Triple rinse (or equivalent), then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. (If containing 1 gallon or less, use this container disposal statement.)

Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR GENERAL DISINFECTION of hard, non-porous inanimate surfaces such as glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl and enamel and finished wood surfaces. Apply this product on walls, floors, appliances and furnishings in industrial and commercial offices, restrooms and work areas.

CLEANING. Whenever practical, flush away gross soils with water. For cleaning, use 1 to 4 ounces of THIS PRODUCT per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system or a mechanical spraying device. After cleaning, remove suspended soils with a clean rinse, vacuum pickup or by wiping with a clean mop, sponge, squeegee or cloth.

DISINFECTING. Before disinfecting, pre-clean surfaces as directed above. Then, prepare 3 ounces of THIS PRODUCT per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

FOR DEODORIZING CABBAGE CANS, CABBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER CABBAGE HANDLING EQUIPMENT. It is especially important to pre-clean, preferably using a mechanical spraying device, in order for the disinfectant to perform properly. Then apply a wetting solution of 3-6 ounces of THIS PRODUCT per gallon of water.

FOR CLEANING OF WALLS, FLOORS AND INDUSTRIAL WORK AREAS. Use 2-4 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing continuous hand cleaning.

THIS DISINFECTANT may be used through automatic floor scrubbing equipment.

This product must not be used on food contact surfaces.

When applied as directed to pre-cleaned hard, non-porous surfaces, this disinfectant kills the following organisms at 2 ounces per gallon: Candida albicans, Escherichia coli, Streptococcus pyogenes, Enterobacter aerogenes, Shigella sonnei.
