EPA Est. No. 5185-GA-2

ACCEPTED
5185-238
JUL 29 1975
UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO.

DIRECTIONS

Swimming pool water is subject to accumulations of a wide variety of organic contaminants. Perspirations, suntan lotions, hair sprays and cosmetics, scaling from skin of bathers and mucous-like discharges. These organic wastes should be removed from the pool periodically, particularly during peak periods of heavy usage. BURN-OUT FR-65 will effectively reduce organic contamination in swimming pool water, resulting in increased water clarity.

Use BURN-OUT FR-65 at the rate of 1 pound per 10,000 gallons of water. Add total amount at one time, broadcasting directly into the pool water. Add BURN-OUT FR-65 preferably at night or when the pool is not in use. There will be an initial high chlorine reading and the pool should not be placed in use until the residual available chlorine is at a normal level of 1 to 3 ppm as determined by a test kit. The use of BURN-OUT FR-65 is recommended once weekly for heavily used commercial and semi-commercial pools and once every two weeks for residential pools receiving normal usage.

Maintain the residual available chlorine concentration of the pool water between 1.0 to 2.0 ppm as determined by test kit.

Between treatments with BURN-OUT to remove organic wastes, use your normal chlorine source to maintain the residual available chlorine concentration of the pool water between 1.0 and 2.0 ppm as determined by test kit. Follow directions on label of specific product used for this purpose.

DANGER

KEEP OUT OF REACH OF CHILDREN

Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. May produce severe chemical burns. May be fatal if swallowed.

FIRST AID: In case of skin or eye contact, wash thoroughly with water. For eyes, get prompt medical attention. If skin irritation persists, get medical attention.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

DANGER -- Oxidizing material. Contact with heat, moisture or foreign materials may result in fire. Will burn with the evolution of irritating and hazardous gases.

DO NOT MIX WITH ANY OTHER CHEMICALS AT ANY TIME AS A FIRE OR EXPLOSION MAY RESULT. Store in a cool dry place. Keep away from heat or open flame. Rinse empty container thoroughly with water and discard it.

ENVIRONMENTAL CAUTIONS -- This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
