DIRECTIONS

To clean, disinfect and deodorize toilet bowls and urinals.

- 1. Use swab mop to force water from bowl over trap.
- 2. Press swab mop against bowl to remove surplus water, then saturate mop with bowl cleaner while holding bottle or applicator over bowl or urinal.
- 3. Clean unit to remove stains and odorous matter. Swab bowl surfaces thoroughly, especially under the rim.
- 4. Flush commode or urinal several times and rinse applicator thoroughly.

CAUTION: Do not use on sinks, bathtubs or other porcelain enameled surfaces. Use only on vitreous toilets and urinals.

DANGER: Corrosive. Keep Out of Reach of Children. May be fatal or harmful if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing.

FIRST AID: If swallowed, call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites.

Eye contact: wash with water for 15 minutes. Get prompt medical attention.

Skin contact: wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

Rinse empty container thoroughly with water and discard it.
