Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Notification per PR Notice 93-10. This is to certify that this notification meets every requirement of PR Notice 93-10.

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Metal <input type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____		
* Certification must be submitted		if "Yes" Unit Packaging wgt. _____ No. per container _____	if "Yes" Package wgt _____ No. per container _____		
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product	
6. Manner in Which Label is Affixed to Product <input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled				<input type="checkbox"/> Other _____	

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Mark Jernigan	Title Federal Registration Manager	Telephone No. (Include Area Code) (404)378-1761 ext 359
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamped)
2. Signature 	3. Title Federal Registration Manager	
4. Typed Name Mark Jernigan	5. Date 7/14/95	

BIO-CHLOR LB-1000

ACTIVE INGREDIENT:
Sodium Hypochloride 10%
INERT INGREDIENTS: 90%
TOTAL INGREDIENTS: 100%

KEEP OUT OF REACH OF CHILDREN
DANGER Read additional precautions and first aid on back panel.
NET CONTENTS: 1 GALLON (3.79 L)

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IN SWIMMING POOLS: This product is an effective sanitizer and shock treatment in swimming pool water aiding in the control of bacteria and algae and water clarity. This product may be added directly to the pool by pouring along the edges of the pool away from the wall or, since it is a liquid the proper dosage can be fed continuously or intermittently into the pool with an automatic feeder. The pH of the pool water should be maintained in the range of 7.2-7.6. **STARTING DOSE:** When opening pool in Spring or starting a new pool use 6 to 8 ounces of this product per 1,000 gallons water to provide 5-10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2-7.6. (Remove debris and soils from pool and filter before adding any chlorine.)

MAINTENANCE DOSES: Use a chlorine test kit several times a day to measure free available chlorine and add 1 to 2 ounces of this product per 1,000 gallons to maintain the required chlorine residual. For pools stabilized with cyanuric acid (s-triazine trione) keep a chlorine residual of 1.0-1.5 ppm. For unstabilized pools maintain 0.6 to 1.0 ppm. Follow the directions of your local health department.

SHOCK TREATMENT: To rid pool of organic wastes and increase water sparkle and clarity, apply 1 quart per each 3,000 gallons of pool water. Treatment should be applied in an area of good circulation and at a time when pool is not in use, preferably at night. Swimming should not be resumed until chlorine level falls to 1.0-3.0 ppm. Repeat treatment every other week or weekly if swimming activity is heavy.

STORAGE AND DISPOSAL: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. **DO NOT REUSE CONTAINER** but place in trash collection. Do not contaminate food or feed

by storage, disposal or cleaning of equipment.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED: Drink large amounts of water. **DO NOT** induce vomiting. Call a physician or poison control center immediately. **IF CONTACT WITH EYES OCCURS:** Flush with water for at least 15 minutes. Get prompt medical attention. **IF CONTACT WITH SKIN:** Wash with plenty of soap and water.
