- **POOL COVER CLEANER AND DEODORIZER**
Lubricates, preserves and prolongs life and appearance of color
- **HOSPITAL DISINFECTANT AND CLEANER**
- **SHOWER-LOCKER ROOM DISINFECTANT**
- **GENERAL USE DISINFECTANT CLEANER AND DEODORANT**

KILLS STAPH, SALMONELLA AND ATHELETE'S FOOT FUNGUS ON ENVIRONMENTAL SURFACES AT ALL RECOMMENDED USE DILUTIONS.
PSEUDOMONICIDAL AT 5 OZ/GALLON

ACTIVE INGREDIENTS:
 Alkyl (C14, 58%; C16, 28%; C12, 14%)
 dimethyl benzyl ammonium chloride 2.00%

Sodium metasilicate, anhydrous 0.50%

Ethylenediamine tetraacetic acid,
 tetrasodium salt 0.07%

Total Active 2.57%

INERT INGREDIENTS: 97.43%

TOTAL INGREDIENTS 100.00%

Manufactured by **BIO-LAB, INC.** Decatur, Ga.

WARNING

KEEP OUT OF REACH OF CHILDREN
 (See First Aid and other Precautions on side panel)

EPA Reg. No. 5185-301 EPA Est. No. 5185 GA 1

NET CONTENTS: 1 U.S. Quart (0.94 liters)

EACH GRADUATION REPRESENTS APPROXIMATELY 1 OZ.

This Disinfectant is effective against a wide variety of gram positive and gram negative bacteria and fungi.

This Disinfectant is also an excellent deodorant. It is especially advantageous to control odors that are bacterial in origin.

This Disinfectant mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to plastic, vinyl, synthetic, enamel, tile and most common metals. Has a pleasant lemon odor.

DIRECTIONS

As a General Cleaner and Deodorant: Remove gross soils and debris with a clean water flush where practical. Using a mop, brush, cloth or sponge, scrub the surface with a solution containing 3 to 8 ounces of Slow Away per gallon of water. Rinse with clean water. This leaves the surface clean and deodorized. Follow appropriate directions below for disinfection. This is an excellent cleaner for pool decking and patios. It removes algae and slime and aids in their control.

Disinfection in Hospitals, Veterinary Clinics and related Medical Areas: Prepare disinfecting solution containing 5 oz Slow Away per gallon of water and, using a clean cloth, mop or sponge, thoroughly wet surfaces to be disinfected. For contagion areas, use 8 oz Slow Away per gallon of water.

General Disinfection in homes, schools, locker rooms, barber shops and showers: With a clean cloth, brush or sponge, thoroughly wet surfaces to be disinfected with a solution containing 3 oz per gallon of Slow Away.

Deodorizing Garbage Cans, Waste Receptacles, etc. Use a solution of 16 oz per gallon of water. Thoroughly wet all surfaces.

Cleaning and Deodorizing Pool Covers: Remove cover from pool and spread it over a clean surface (driveway or patio). Flush away leaves and debris with a garden hose. Apply Slow Away liberally from the flip top bottle and scrub with a brush, preferably your nylon bristle pool brush with telescopic pole. Flush away loosened soils with water. Allow cover to dry, as thoroughly as practical. Flush away any spills of Slow Away from patio or lawn areas with copious amounts of water from a garden hose.

ENVIRONMENTAL SURFACES CONTACTING FOOD MUST BE THOROUGHLY RINSED WITH POTABLE WATER PRIOR TO REUSE

WARNING

KEEP OUT OF REACH OF CHILDREN

Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

STORAGE AND DISPOSAL: Rinse empty container thoroughly with water and discard it. EPA Est No 5185 GA 1
