

# BIO-GUARD<sup>®</sup>

## Super Soluble 40

### CHLORINATING GRANULES

with pH buffering agent

#### DIRECTIONS FOR USE

Use 6.7 ounces of this product per 10,000 gallons of water as an initial treatment. Repeat until a residual of 1.0-2.0 ppm of available chlorine is established as determined by test kit. A test kit must be used regularly to determine when it is necessary to add another dose of this product to maintain a residual of 1.0 to 2.0 ppm of available chlorine in the pool water. An average daily dose to maintain 1.5-2.0 ppm of this product per 10,000 gallons of water.

The use of a galvanized iron or steel pool will reduce the total per gallon of available chlorine available. If such an application is used, the instructions appearing on the label for this product must be followed.

Do not add super-saturating concentrations of this product per 10,000 gallons of water. Swimming pool water should be treated to the point until the available chlorine residual falls to 2.0 ppm.

**STORAGE AND DISPOSAL:** Keep product dry in original container. When not in use, store in a cool, dry, well-ventilated area away from heat or open flame. In case of fire, use water to dissipate all material before disposal. Do not use water to dissipate all material before disposal. Do not use water to dissipate all material before disposal.

#### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office or EPA.

#### PHYSICAL AND CHEMICAL HAZARDS

**STRONG OXIDIZING AGENT:** Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

<b>ACTIVE INGREDIENTS:</b>	
Sodium dichloro-s-triazinetriene	54.6%
<b>INERT INGREDIENTS:</b>	37.4%
<b>Total Ingredients</b>	<b>100.0%</b>
<b>(available chlorine 40%)</b>	

#### KEEP OUT OF REACH OF CHILDREN DANGER

**PRACTICAL TREATMENT (FIRST AID):** If swallowed, feed product soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cool water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, flush with cool water for at least 15 minutes. Get medical attention.
