

5185-351

This product is effective as a swimming pool water disinfecting agent when used as directed. It is recommended that the pool be stabilized with 40-50 ppm cyanuric acid to minimize the dissipation effect of sunlight on chlorine. When using this product, both chlorine and cyanuric acid are being added to the water; however, it is necessary to initially stabilize pool with 40-50 ppm of cyanuric acid to effectively maintain the desired concentration of stabilizer.

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Before using this product, it is recommended that the pool be super chlorinated so that a chlorine residual of between 1.0 and 3.0 ppm is obtained. The pH of the water should always be kept at 7.4 to 7.6.

These sticks should be used in various types of automatic chlorinators or placed in plastic skimmers. Adjust whatever feed mechanism that might be used to assure a constant treatment level of 1.0-3.0 ppm available chlorine in the pool water, normally 1 or 2 sticks of this product per 10,000 gallons. Use a reliable chlorine test kit to monitor chlorine levels and adjust the chlorine feed mechanism as needed.

Do not let sticks come in contact with vinyl liners or other bleachable surfaces. Do not mix other chemicals with this product, as a dangerous reaction may occur.

**BioGuard®
Econostik-90**

Stabilized Chlorinating Sticks

ACTIVE INGREDIENT:
Trichloro-s-triazinetrione 90%
INERT INGREDIENTS: 10%
100%

KEEP OUT OF REACH OF CHILDREN

DANGER

(See additional precautions on side panel)

PRACTICAL TREATMENT: (FIRST AID): If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**A PRODUCT OF
BIO-LAB, INC., DECATUR, GEORGIA 30031**

EPA Reg. No. 5185-
EPA Est. No. 5185-GA-2

NET CONTENTS: 10 lbs.

STORAGE AND DISPOSAL: Keep product in a tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. Rinse empty container well and place in trash collection or dispose in approved landfill areas or bury in a safe place.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public water unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS
STRONG OXIDIZING AGENT;**

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, if necessary.
