

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (WH-567) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 5185-352	DATE OF ISSUANCE NOV 1967
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT EPA Reg. No. 5185-352	

NOTICE OF PESTICIDE: REGISTRATION REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Rio-Lab, Inc.
 P. O. Box 14113
 Decatur, GA 30033

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 2(c)(2)(A) provided that you:

1. Submit and/or cite all data required for registration or reregistration of your product under FIFRA sec. (c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 5185-352" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed label before you release the product for shipment. Refer to the A-79 Pamphlet for information on final printed labeling.

A copy of your proposed label with our acceptance stamp is included with this registration with the understanding that you will comply with the conditions in the attachment to the registration notice.

recting agent when used as directed. The pool should be stabilized with 40-50 ppm cyanuric acid to reduce chlorine loss due to sunlight. When using this product, both chlorine and cyanuric acid are being added to the water; however, it is necessary to initially stabilize pool with 40-50 ppm of cyanuric acid to effectively maintain the desired concentration of stabilizer.

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Before using this product, backwash and clean the filter then super chlorinate the pool so that a chlorine residual of between 1.0 and 3.0 ppm is obtained. Follow directions on shock treatment label.

These tablets should be used in automatic chlorinators as a maintenance treatment. Fill chlorinator unit with tablets and adjust the feeding mechanism to assure a constant treatment level of 1.0-3.0 ppm available chlorine in the pool water, normally 1-2 ounces (2 to 4 tablets) of this product per 10,000 gallons daily. Use a reliable chlorine test kit to monitor chlorine levels and adjust the chlorine feed mechanism as needed. The pH of the water should always be kept at 7.2 to 7.6.

Check and refill chlorinator as needed.

Do not let tablets come in contact with vinyl liners or other bleachable surfaces. Do not mix other chemicals with this product, as a dangerous reaction may occur.

BEST AVAILABLE COPY

STORAGE AND DISPOSAL: Keep product in a tightly closed original container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. Rinse empty container well and place in trash collection or dispose in approved landfill areas or bury in a safe place.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

**PHYSICAL AND CHEMICAL HAZARDS
STRONG OXIDIZING AGENT;**

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, if necessary.
