NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. The registrant certifies that the following statements are true and correct:  
a. The product is labeled in accordance with the requirements of the Federal Insecticide, Fungicide, and Rodenticide Act.  
b. The product is labeled in accordance with all applicable state laws.  
c. The product is labeled in accordance with all applicable federal regulations.  
d. The product is labeled in accordance with all applicable state regulations.  
e. The product is labeled in accordance with all applicable federal regulations.  
f. The product is labeled in accordance with all applicable state regulations.  
g. The product is labeled in accordance with all applicable federal regulations.  
h. The product is labeled in accordance with all applicable state regulations.  
i. The product is labeled in accordance with all applicable federal regulations.  
j. The product is labeled in accordance with all applicable state regulations.  
k. The product is labeled in accordance with all applicable federal regulations.  
l. The product is labeled in accordance with all applicable state regulations.  
m. The product is labeled in accordance with all applicable federal regulations.  
n. The product is labeled in accordance with all applicable state regulations.  
o. The product is labeled in accordance with all applicable federal regulations.  
p. The product is labeled in accordance with all applicable state regulations.  
q. The product is labeled in accordance with all applicable federal regulations.  
r. The product is labeled in accordance with all applicable state regulations.  
s. The product is labeled in accordance with all applicable federal regulations.  
t. The product is labeled in accordance with all applicable state regulations.  
u. The product is labeled in accordance with all applicable federal regulations.  
v. The product is labeled in accordance with all applicable state regulations.  
w. The product is labeled in accordance with all applicable federal regulations.  
x. The product is labeled in accordance with all applicable state regulations.  
y. The product is labeled in accordance with all applicable federal regulations.  
z. The product is labeled in accordance with all applicable state regulations.

**100% WATER TREATMENT**

This is a dry granular product designed for water treatment and water softening. The following figures are typical for commercial use.

Total Hardness: 100-150 ppm.

Calcium Hardness: 50-100 ppm.

Residual Available Chlorine: 0.5-1.0 ppm.

Chemical Feed: 1.0-1.5 lbs./Gallon of water.

**INSTRUCTIONS FOR USE:**

It is a granular of spherical low density material which is soluble and insoluble with the following:

The product is compatible with all types of piping, but always add酸性 chemicals separately. Use a suitable test kit with these solutions for pH and chlorine testing. Add this product daily when the water appears dingy or hazy from bacteria contamination. Turn off the air blower and circulation system. Sprinkle this product into water at the rate of one ounce per 50 gallons. The granules will dissolve completely without foaming and liberate 10 ppm of available chlorine. Allow the ensuing reaction to proceed thirty minutes before re-energizing the air flow in the circulation system. Bacteria should be removed the day prior to the circulation system. Bacteria should be removed the day prior to the availability of water measured 500-600 ppm.

Before using this type, dilute it in water and add directly to the water. Do not add this to the water. Do not use this as a beverage for the water. Avoid overmixing the water.

This product should not be used more than once a day. If the product is used daily, it should be cleaned and fresh-filled about weekly.

**STORAGE AND DISPOSAL:** Keep this product dry and tightly sealed when not in use. Store in a cool, dry, well-ventilated area away from heat or other flame. In case of accidental spill, complete containment (if possible) and dilute with large amounts of water to dissolve all materials before discarding the materials.

**PURIFICATION:** Do not reuse empty containers and place in trash collection. Do not contaminate water funds or feed by storage or disposal, or cleaning of equipment.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. When diluted can cause skin and mucous irritation when handling. Irritating to nose and throat. Avoid breathing dust. Remove any contaminated clothing before reuse.

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT**

Strong Oxidizing Agent. Mix slowly with water. Use in dry utensils. Do not add this product to any containing device containing elements of any other product. Such mix may cause a violent reaction leading to fire or explosion. Contains chlorine with moisture, temperature, pressure, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and/or the generation of fire and explosion. In case of contamination in the upper tank, do not touch container. If possible, isolate container and seal in well-ventilated area. Rinse with large amounts of water, if necessary.

**SPECIFIC INSTRUCTIONS: DO NOT USE IN PLASTIC CONTAINERS OR PLASTIC**

INHALATION: If water, Do not induce vomiting. Remove victim from area. If in contact with eyes, flush eyes with clean water for at least 15 minutes. If irritation persists, get medical attention. If in eye: Flush with cool water or get medical attention.

EAT: If minutes, Get medical attention.

ENVIRONMENTAL HAZARD: This product is toxic to fish. Do not discharge into wells, streams, rivers, or public waters. Dispose in accordance with all N.D.O.E.permits. For guidance, contact the Regional Office of E.P.A.
