

- f. Delete "Measures against circulatory shock, respiratory depression, and convulsion may be needed."
- g. Revise the entire Environmental Hazards section to read:

Environmental Hazards

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

- h. Include the two subheadings to the Storage and Disposal section:

Pesticide Disposal
Container Disposal

- i. Revise:

Causes eye damage and skin irritation.

to read:

Causes eye and skin damage.

- j. Add the following precautionary statement:

Wash thoroughly with soap and water after handling.

- k. Use the product name consistently through out the label.

- l. Revise the heading (left panel) to read:

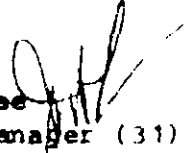

Industrial/Commercial recirculating cooling water towers.

- m. Add also the equivalent parts per million level (dosage) to the cooling tower section.

-3-

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Registration Division (H7505C)

Enclosure

1. A vertical line of holes is shown in the picture to show the
position of the holes in the ground.

RECIRCULATING WATER COOLING SYSTEM (continued)

INITIAL DOSE: 400 mg. (10 mg/kg) PO BID

Subsequent OOST were caused by a series of little but repeated failures in the operation of the engine, primarily of the fuel system, and a high proportion of the engine failures were caused by a single failure of the fuel system.

The Agency has been unable to determine the exact number of persons who have been employed by the Agency since the beginning of the year. The Agency has been unable to determine the exact number of persons who have been employed by the Agency since the beginning of the year.

[illegible][illegible][illegible]

Controls Slime in Recirculating Water Cooling Towers

Controls Anaerobic Sulfate-Reducers and Aerobic Bacteria in Oil Field and Petrochemical Water Injection Systems

The first of these is the fact that the system is not
 self-contained. It is dependent on the external
 environment for its operation. This is a
 significant limitation, as it means that the
 system cannot be used in isolation.
