NET WEIGHT

ALPHA INITIATOR provide controlled release of sanitizer to keep your pool sparkling clear and protected against algae growth. This product may be used safely for skimmer application in pools of all surface types. The unique controlled release properties of ALPHA INITIATOR allow twice a month application*, making pool care easier than ever before.

*Based on ten hours of daily pump operation, 25 gallons per minute flow rate through skimmer, and 80-85 degree water temperature.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

INITIAL START-UP OR SPRING OPENING: Consult your [BioGuard] *{or}* [professional pool] dealer for initial water balance and start-up procedures. Ensure that pool equipment is operating properly and chemically clean filter as necessary. Establish a minimum level of 40-50 ppm stabilizer (cyanuric acid). Superchlorinate pool water using a chlorinated shock product following its label directions. Test for free chlorine residual 24 hours after shocking. Your pool water should have a minimum of 2 ppm chlorine residual at this time. Repeat superchlorination according to the chlorinated shock label directions until your pool water has at least 2 ppm chlorine 24 hours after shocking.

Place one ALPHA INITIATOR in the skimmer for every 5,000 gallons of pool water or portion thereof. If multiple skimmers are used, divide the dosage among them. Operate pool recirculation system approximately 10 hours per day.

ROUTINE MAINTENANCE: Once every two weeks, place one ULTRA STICK in the skimmer for every 5,000 gallons of pool water or portion thereof. If multiple skimmers are used, divide the dosage among them. If ALPHA INITIATOR are visible in skimmer 20 days after addition, increase skimmer flow or daily pump operation time. Test pool water periodically and adjust as necessary to maintain a pH of 7.2-7.6. At least twice a season, take a pool water sample to your [BioGuard] *{or}* [professional pool] dealer for analysis and water balance recommendations.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS **DANGER:** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Do not breathe dust or fumes. Irritating to nose and throat. Wear protective eyewear (safety glasses). Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS **STRONG OXIDIZING AGENT:** Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS] This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS] This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
