Form Approved. OMB No. 2070-0060. Approval expires 05-31-98

United States Environmental Protection Agency Washington, DC 20460

Registration Amendment Other

OPP Identifier Number 243533

Application for Pesticide - Section I

1. Company/Product Number: 5185-435
2. EPA Product Manager: R. Douglas
3. Proposed Classification: [X] None [] Restricted
4. Company/Product (Name): Synergy Tabs
5. Name and Address of Applicant: BioLab, Inc., P.O. Box 1489, Decatur, GA 30031
6. Expedited Review: In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. Product Name

Section - II

Amendment - Explain below. Resubmission in response to Agency letter dated. Notification - Explain below. Final printed labels in response to Agency letter dated. "Me Too" Application. Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

See Attached.

Statement deletion from Directions for Use.

Section - III

1. Material This Product Will Be Packaged In: Child-Resistant Packaging, Unit Packaging, Water Soluble Packaging, 2. Type of Container, 3. Location of Net Contents Information, 4. Size(s) Retail Container, 5. Location of Label Directions, 6. Manner in Which Label is Affixed to Product

Section - IV

1. Contact Point: Name: Mark Jernigan, Title: Federal Registration Manager, Telephone No.: 404-378-1761 ext. 359. Certification: I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. 2. Signature: Mark Jernigan, 3. Title: Federal Registration Manager, 4. Typed Name: Mark Jernigan, 5. Date: 1/17/96, 6. Date Application Received: (Stamped)

EPA Registration Number: 5185-435

Product: Synergy Tabs

Section - II

Explanation (Continued)

This notification is to delete the statement "Pools should be shocked routinely to maintain optimum water quality." under the heading "Directions for Use" under the section "Routine Maintenance".

"Notification of minor label change per PR Notice 95-2, Section II (Notifications), Part A.4 (Adding, Revising or Deleting Advisory Statements)."

"This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

SYNERGY TABS
 ALGICIDE--SANITIZER--BACTERICIDE--FUNGICIDE
 EXCLUSIVELY DESIGNED FOR USE WITH THE SYNERGY SYSTEM
 SPECIFICALLY FORMULATED FOR USE IN AUTOMATIC AND FLOATING TYPE CHLORINATORS
 CONTAINS ATC-3 EROSION CONTROL AGENT
 INCREASED SANITIZER EFFICIENCY
 ENHANCED SWIMMER COMFORT
 PATENTED TECHNOLOGY

ACTIVE INGREDIENT:	
TRICHLORO-S-TRIAZINETRIONE	91.5
DISODIUM BIBORATE PENTAHYDRATE	5.0
INERT INGREDIENTS:	3.5
TOTAL	100.0

KEEP OUT OF REACH OF CHILDREN
DANGER

STATEMENTS OF PRACTICAL TREATMENT: IF CONTACT WITH EYES OCCURS: Immediately flush with cold water for at least 15 minutes. Then get immediate medical attention. IF CONTACT WITH SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. IF INHALED: Remove to fresh air. If breathing is difficult, have trained person administer oxygen. If not breathing, give artificial respiration. Call a physician immediately. IF SWALLOWED: Drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF MEDICAL EMERGENCY, CALL 1-303-623-5716.

See back panel for additional precautionary statements.

MANUFACTURED BY:	EPA REG. NO. 5185-435
BIOLAB, INC.	
DECATUR, GA	EPA EST. NO. 5185-GA-1

NET WEIGHT

This product is specifically formulated for use in automatic type feeders. It provides highly effective pool water sanitization and algae control when used in this manner. This combination of ingredients enhances the water quality to reduce potential eye and skin irritation. This product is formulated to dissolve more cleanly and uniformly in automatic feeders thereby reducing plugging, fouling, maintenance requirements and adjustments.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Prior to using this product, the filter system should be properly cleaned and backwashed and the pool water pH adjusted to 7.2-7.6. It is recommended that the pool be superchlorinated to establish a chlorine residual of 1.0-3.0 ppm of free chlorine.

INITIAL APPLICATION: This product is specially designed for use in automatic type feeders **except for bromine only type feeders (See Caution below)**. Turn the pump off before opening the feeder housing. Stand to the side of the feeder and carefully remove the feeder lid allowing any pressure that may have built up to bleed off. Inspect the reservoir and clean thoroughly if any build-up of greasy deposits, dirt or any other debris are present in the feeder. Prior to adding this product to the feeder, refer to the operating instructions provided by the manufacturer of the unit. Fill the feeder according to the operating instructions and re-close making sure the feeder lid is securely tightened. Turn on the pump to check the system for proper sealing. Adjust the feeder control rate according to the manufacturers instructions to provide a constant treatment level of 1-3 ppm sanitizer in the pool water. Proper feed rate is determined by regular testing with a SYNERGY test kit.

ROUTINE MAINTENANCE: Test pool water regularly (at least weekly) and check feeder weekly, refilling as needed. Add additional product as needed to maintain a free sanitizer level of 1-3 ppm in the pool water. Regular use of a SYNERGY test kit is recommended to make certain adequate levels of sanitizer and proper pH are being maintained in the pool water.

CAUTION: Do not use this product in automatic brominators or skimmers. Use of this product through a bromine type feeder or skimmer could cause an adverse chemical reaction or explosion resulting in serious bodily injury, death or property damage.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine.

STORAGE AND DISPOSAL Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse. For skin or eye contact, or if dust/fumes are inhaled, immediately follow statements of practical treatment on front label panel.

PHYSICAL OR CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with direction. The SYNERGY SYSTEM is a patented method for treatment of swimming pools. Additional patents pending.
