Subject:

Notification Application per PR Notice 98-10

BioGuard Lite

EPA Registration Number 5185-475 Application Date: January 6, 2012 EPA Receipt Date: January 10, 2012

Dear Mr. Jernigan:

This acknowledges receipt of the above notification application, submitted under the provision of PR Notice 98-10, FIFRA 3(c)9.

Proposed Notifications:

• Add new marking claim to pages 5, 9, & 13 of the master label.

General Comments:

Based on a review of the material submitted, the following comment applies:

The notification application is acceptable. A copy of the accepted notification has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact Adam Heyward via email at heyward.adam@epa.gov or by telephone at (703) 347-0274 during the hours of 6:00 am to 2:30 pm EST.

BioGuard Lite

Application for Pesticide dated: January 6, 2012

Section - II Explanation (Continued)

Notification of additional marketing statement per PR Notice 98-10, Section II (Labeling Notifications), Part N (Other Revisions).

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Re: BioGuard Lite

EPA Registration No.: 5185-475

Dear Sir/Madam:

Please process the enclosed notification for the above referenced product.

The purpose of this notification is to add optional marketing text to the label. The new text is located on pages 5, 9 &13 of the enclosed master label.

Enclosed are:

- 1. Application for Pesticide (EPA Form 8570-1);
- 2. Notification Certification Statement; and
- 3. Proposed label with changes marked.

If you have any questions, please call me at 678-502-4149 or mark.jernigan@chemtura.com.

Thank you for your attention to this matter.

Sincerely,

Mark Jernigan

Regulatory Affairs Manager

{Directions to be used for swimming pool shock/oxidizer treatment.}

SWIMMING POOL [SHOCK] {and/or} [OXIDIZER]

{To maintain brand segmentation, three sets of marketing statements are provided to maintain separate brand identity.}

{One of the following 3 sets of paragraphs will be used on the label.}

{Option 1}

[This specially formulated product, a blend of [multiple oxidizers] {or} [an oxidizer], clarifiers and water enhancing buffers, keeps your pool water sparkling clear. This product delivers superb water clarity, destroys eye irritating chloramines and unpleasing odors, improving swimmer comfort. Proper use of this product will not adversely affect the pH of the pool water. Designed for use with all types of pool surfaces, this convenient, easy-to-use product allows swimming as soon as 15 minutes after application.*

This product dissolves quickly and completely. No premixing is required and no undissolved solids remain. (In water temperatures less than 70° F this product may take longer to dissolve. To prevent possible damage to pool surface, use a pool brush to disperse any granules which may have settled to the bottom of the pool.) May be used with chlorinated, brominated, ozone and ionization systems. It is formulated for use with all types of pool surfaces. DO NOT use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [Omni] [Guardex] [Hydrotech] [Pool Season] [Sun] product specifically formulated for these purposes.]

{Option 2}

[BioGuard® has a wide variety of products that prevent specific pool situations. These products are designated as "Inhibit".] {or}

[BioGuard® has a wide variety of products that are required to maintain a quality swimming environment. These products are designated as "Maintain".]

[This product is a premium, multi-purpose product. By simply using this product once-a-week, it will reduce eye irritants and unpleasant odors. In addition, it corrects most cloudy conditions and restores water sparkle. Unlike other shock products, this product does not adversely affect the pH of pool water and leaves no cloudy residue. Swimmers can resume pool use in as little as 15 minutes after application.* (Check the chlorine residual. Swimming may resume when residual is 1 – 4 ppm.) It can be used with all types of pool surfaces. [Additional] [Unique] [It includes] ingredients [such as water clarifiers and flocculants][that] aid the filter in removing small suspended particles to further enhance water clarity.

This product is compatible for use in pools with chlorinated products, brominated products, ozone, and can also be used with ionizers. This product dissolves quickly and completely. It does not require pre-mixing and leaves no undissolved solids. (In water temperatures less than 70° F this product may take longer to dissolve. To prevent possible damage to pool surface, use a pool brush to disperse any granules which may have settled to the bottom of the pool.) Do not use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [BioGuard] product specifically formulated for these purposes.]

{Option 3}

[BioGuard® has a wide variety of products that prevent specific pool situations. These products are designated as "Inhibit".] {or}

[BioGuard® has a wide variety of products that are required to maintain a quality swimming environment. These products are designated as "Maintain".]

[The BioGuard® Care System has three important parts that help you maintain crystal blue sparkling water.

- ☐ A Sanitizer to kill bacteria
- ☐ A Shock to destroy contaminants
- ☐ A Preventative [algicide][algaecide] to stop algae before it starts

All parts of the BioGuard Care System are vital to achieve beautiful water.]

[This product] {or} [BioGuard Lite] is a shock product that can be used in the BioGuard Care System. Weekly use of [this product] {or} [BioGuard Lite] keeps your water crystal blue and sparkling. Utilizing an advanced patented technology, [this product] {or} [BioGuard Lite] performs multiple functions:

- oxidizes organic contaminants that cause cloudy water, musty odors and eye irritation
- clarifies the water using a filter enhancer
- buffers pH to provide brilliantly clear water with no cloudy residue and without increasing pH

This shock product is easy to use. Because it dissolves rapidly and is multifunctional, [this product] {or} [BioGuard Lite] works fast and effectively. Resume swimming in as little as 15 minutes.* [This product] {or} [BioGuard Lite] is suitable for all pool types,

⚠ DO NOT mix this product directly with any other shock products or pool chemicals as violent reactions could occur. This product must be applied from the [bag] [bottle] [container] directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

With the pump in operation, apply the entire dosage at one time. Broadcast evenly around edges with special attention to areas of the pool where water circulation is the poorest. Apply directly to pool water only. Do not add through a skimmer or any automatic dispensing device.

For best results, test and adjust pool water pH to 7.2-7.6 prior to application. Apply product when pool is not in use. Swimming may resume in as soon as 15 minutes after product application.* Test chlorine residual. Swimming may resume when chlorine residual is 1-4 ppm.

ROUTINE MAINTENANCE: To help maintain a sparkling clear pool, add one pound of product to [10,000 to] 12,000 gallons of water each week.

ADDITIONAL APPLICATIONS: Additional applications are recommended after periods of heavy pool usage, significant rainfall or the appearance of cloudy water. Follow routine maintenance instructions.

OFF SEASON MAINTENANCE: Pools which are kept circulating during the winter season require less frequent additions. Apply product approximately once each month at the rate of one pound of product to [10,000 to] 12,000 gallons.

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. REENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

{Directions to be used for swimming pool clarification.}

SWIMMING POOL CLARIFIER

NEW TEXT Made exclusively for use with the [SNAP®] [SIMPLICITY®] [SYNeRGY®] [Sparkling Clear] SYSTEM, this product replaces several products with one convenient premeasured product. This specially formulated product, a blend of [multiple oxidizers] {or} [an oxidizer], clarifiers and water enhancing buffers, helps keep your pool water sparkling clear. This product provides enhanced water clarity, improved swimmer comfort and offers the convenience of "Once-A-Week" application. Designed for use with all types of pool surfaces. [This product] [[SNAP®] [SIMPICITY®] [SYNeRGY®] Clear] allows swimming as soon as 15 minutes after application.* This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [Omni®] [Hydrotech®] [Guardex®] [Sun®] product specifically formulated for these purposes.

⚠ DO NOT mix this product directly with any other pool chemicals as violent reactions could occur. This product must be applied from the [bag] [bottle] directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

ROUTINE MAINTENANCE: Apply [this product] [[SNAP[®]] [SIMPLICITY[®]] [SYNeRGY[®]] Clear] weekly at a dosage rate of one-half pound per 10,000 gallons of pool water. Turn on the pump before adding this product and allow pool to circulate for 4 to 8 hours after application for best results. Broadcast the dosage of this product over the water surface at the deep end of the pool. To prevent possible damage to pool surface, use a pool brush to disperse any granules which may have settled to the bottom of the pool. Do not apply this product through a skimmer or any automatic dispensing device. Swimming may be resumed as soon as 15 minutes after application.* Test chlorine residual. Swimming may resume when chlorine residual is 1-4 ppm.

OFF SEASON MAINTENANCE: Unheated pools which are kept circulating during the winter season require less frequent additions of this product. Apply product every three weeks following instructions and dosage for routine maintenance.

IMPORTANT: Only a [SNAP®] [SIMPLICITY®] [SYNeRGY®] [Sparkling Clear] SYSTEM dealer can test for all components and proper balance of a [SNAP®] [SIMPLICITY®] [SYNERGY®] [Sparkling Clear] SYSTEM. Be sure to have your water tested by a [SNAP®] [SIMPLICITY®] [SYNeRGY®] [Sparkling Clear] SYSTEM dealer and add recommended products following label directions on each product.

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. REENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

{Directions to be used for swimming pool winterization.}

SWIMMING POOL WINTERIZATION

{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}

{One of the following two paragraphs will be used on the label.}

{Option A}

[BioGuard® has a wide variety of products to care for your pool during the off season. These products are designated as "Off Season".]

[This product is a unique dual action formulation which is the first step in an effective winterization program. [[BioGuard] Enhanced Winter Shock] {or} [This product] both oxidizes and clarifies pool water. This quick dissolving product is ideal for use in pools of any surface type.

{or}

{Option B}

[BioGuard® has a wide variety of products to care for your pool during the off season. These products are designated as "Off Season".]

[This multipurpose formulation oxidizes, clarifies, and buffers all in one easy to use product, ensuring an easy spring start-up. Quick dissolving, this easy to use product is ideal for all pool surfaces. This unique formulation results in outstanding water clarity during the winter season and into spring start-up.]

May be used with chlorinated, brominated, ozone and ionization systems. DO NOT use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [BioGuard] product specifically formulated for these purposes.

⚠ DO NOT mix this product directly with any other pool chemicals as violent reactions could occur. This product must be applied from the [bag] [bottle] directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Use 1 pound of this product for each 6,000 gallons of pool water. With the circulation system of the pool on, broadcast the entire dosage into the deep end of the pool. Brush any undissolved product off the surface of the pool with a surface compatible brush.

Continue to circulate the pool for at least 30 minutes before proceeding to the next step in the winterization process.

It is recommended that as part of the closing procedures, a quality winterizing algicide be applied following the application of this product. After application of the algicide, continue with the closing of the pool as directed by pool manufacturer or your dealer.

For mesh covered or non-covered pools, a mid-winter treatment may be required using an appropriate [BioGuard] [Omni] [Guardex] [Hydrotech] [Sun] sanitizer.

{Directions to be used for spa and hot tub oxidizing.}

11

SPA AND HOT TUB OXIDIZER

{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}

{One of the following two paragraphs will be used on the label.}

[This easy to use multi-purpose shock is specially formulated to destroy eye irritants and reduce unpleasant odors. [It is designed to correct most cloudy conditions and restore spa water sparkle.] It is compatible with ozone systems. This product enhances water comfort and stabilizes pH. [Special] [Unique] [It includes] ingredients [such as water clarifiers and flocculants] [that] aid the filter in removing small suspended particles to further enhance water clarity.]

{or}

NEW

TEXT

[This product is specially formulated to destroy eye irritating chloramines, unpleasant odors, and corrects most cloudy conditions to restore spa water sparkle. It combines a blend of [multiple oxidizers] {or} [an oxidizer], water clarifiers and water enhancing buffers. Special ingredients aid the filter in removing small suspended particles to further enhance water clarity. This product provides enhanced water clarity, improved bather comfort, and is convenient to use. It is designed to be used with all types of spa surfaces.]

{One of the following two paragraphs will be used on the label.}

[This product is convenient to use and dissolves quickly and completely. There is no premixing required and no undissolved solids remain. (In water temperatures less than 70^0 F, brush after applications to speed dissolving. Do not allow undissolved material to lie in contact with bleachable surfaces.) This product works with all surface types and may be used with chlorinating products, brominating products, ozone, as well as ionizers. This product is not a sanitizer or algicide. To sanitize your spa or for removal of algae, use the appropriate [BioGuard] [Omni] [Hydrotech] [Guardex] [Sun] product.]

{or}

[This product dissolves quickly and completely. No premixing is required. (In water temperatures less than 70° F, brush after application to speed dissolving. Do not allow undissolved material to lie in contact with bleachable surfaces.) This product is pH neutral and usage will not upset spa water balance. May be used with chlorinating, ozone, brominating, and ionization systems. It is formulated for use with all types of spa surfaces. DO NOT use in spas sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your spa or for removal of algae, use the appropriate [BioGuard] [Omni] [Hydrotech] [Guardex] [Sun] product.]

⚠ DO NOT mix this product directly with any other shock products or spa chemicals, as violent reactions could occur. This product must be applied from the [bag] [bottle] directly into the spa water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

- 1. Test and adjust spa water pH to 7.2 7.6 prior to application of this product.
- 2. Apply product when spa is not in use.
- 3. [Apply product at a rate of 3 tablespoons per 500 gallons.] [Apply entire 1.5 ounce packet per 500 gallons.]
- 4. With pump in operation, apply the entire treatment dosage at one time. Broadcast across water's surface.
- 5. Apply directly to spa water only. Do not add through a skimmer or any automatic dispensing device.
- 6. Add this product at least once a week. Additional applications are recommended after periods of heavy spa usage, significant rainfall or the appearance of cloudy water.

TEST CHLORINE OR BROMINE LEVEL PRIOR TO RE-ENTRY. DO NOT RE-ENTER SPA UNTIL YOUR TEST KIT READING INDICATES A CHLORINE LEVEL OF 5 PPM OR LESS OR BROMINE LEVEL OF 8 PPM OR LESS.

{Storage and Disposal directions when product is sold in bags.}

[STORAGE AND DISPOSAL: Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.]

{Storage and Disposal directions when product is sold in bottles.}

[STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. Do not breathe dust; may be harmful if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling product. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the [pool] [spa]. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal [bag] [container]. Isolate [bag] [container] in open air or well-ventilated area. Flood [bag] [container] and area with large volumes of water. In case of spills, scoop up and place product in [pool] [spa] water, then flood spilled area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight).}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
