### 3" Multi – Functional Chlorinating Tablets

[Patented Sanitizer, Algistat and Clarifier]  
 [Patented Chlorinating Sanitizer, Algistat and Clarifier]  
 [Patented Chlorinating Technology]  
 [Dual Active Ingredient Multi-Function Pool Care Product]  
 [Algistat]  
 [Triple-Action Formula]  
 [Multi Function Triple Action Formula]  
 [Suppresses algae]  
 [Kills Bacteria, Controls Algae, and Clarifies]  
 [For Routine Sanitation and Clarification]  
 [Keeps Water Clear]  
 [For Application in Skimmers, Floaters and Feeders]  
 [For use in all pool types] {This statement alerts consumer to the fact they may use this product in above ground, in ground, indoor, outdoor, plaster, vinyl, fiberglass pools}  
 [Suitable for use with alternative devices such as ionizers, ozonators, and mineral feeders]  
 [Sanitizes, Clarifies, and protects against Algae]  
 [With Built – In Clarifier, Filter Enhancer, Algae Preventative]  
 [Dual active system that sanitizes, and suppresses algae]  
 [3" Tablets]  
 [3 – Inch Tablets]

**ACCEPTED**

APR 16 2003

Under the Federal Insecticide, Fungicide, and  
 Rodenticide Act as amended, for the  
 pesticide, registered under  
 EPA Reg. No. 5185-481

{Following chart is optional}

Our Ingredients:	What They Do:
Trichloro-s-triazinetriene	Sanitizes, Kills Bacteria, and Prevents Algae
Boron sodium oxide (B <sub>4</sub> Na <sub>2</sub> O <sub>7</sub> )pentahydrate	Prevents Algae
Clarifier/Filter enhancer	Provides Crystal Clear Water

2/5

ACTIVE INGREDIENTS:	
Trichloro-s-triazinetriene	79.2%
Boron sodium oxide (B <sub>4</sub> Na <sub>2</sub> O <sub>7</sub> ), pentahydrate	10.0%
OTHER INGREDIENTS:	10.8%
TOTAL INGREDIENTS	100.0%
(Available Chlorine 72%)	

**KEEP OUT OF THE REACH OF CHILDREN**  
**DANGER**

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]**

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

See [back] [side] panel for additional precautionary statements.

**SWIMMING POOL SANITIZER**

We specially formulated this product to meet the rigorous demands of the pool service professional and the discerning pool owner. This patented multi-action formula continuously sanitizes, clarifies, enhances filtration, and controls algae – all in one easy to use tablet.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment is working properly. If necessary, backwash or clean the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. Add stabilizer to establish a minimum level of 20-30 PPM cyanuric acid to reduce the degrading effects of sunlight upon the chlorine residual. Superchlorinate the pool so a chlorine residual between 1-3 PPM is obtained. When using other products as outlined in directions for this product, always follow directions on those products.

This product contains a clarifier/flocculating agent that helps the filter system remove impurities from water via filtration. When necessary, backwash or clean the filter system following manufacturer's directions. [For chemically cleaning the filter, an acidic filter cleaner is recommended]

**WHEN USED IN AUTOMATIC CHLORINATORS AND FLOATERS:**

This product can be used in proportioning mechanisms such as automatic chlorinators and floaters as a maintenance treatment. Fill unit with this product and, following manufacturer's directions, adjust the feeding mechanism to assure a constant treatment level of 1-3 PPM available chlorine in the pool water. Use a test kit or test strips to monitor chlorine levels. Adjust the feed mechanism as needed. Check and refill the automatic chlorinator or floater as needed. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.

**WHEN USED IN SKIMMERS:**

Initially add two tablet of this product per 10,000 gallons of water or portion thereof. (\*\*See below) Add additional product as determined by a test kit or test strip to maintain available chlorine levels of 1-3 PPM. Divide number of tablets evenly for pools with multiple skimmers. This product may be used in plastic skimmers only if skimmer and the piping between skimmer and pump are plastic. Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result. Do not turn pump off for more than 8 hours in vinyl pools when tablets are in skimmer.

**\*\* Operate pool recirculation system approximately 10 hours per day for best results.** Adjusting the hours of pool recirculation or the number of tablets added to the skimmer helps to regulate the sanitizer level. The number of tablets required and frequency of addition will vary with the number of swimmers, water temperature, rain snows, and pump operating time.

**Reentry into treated swimming pools is prohibited when chlorine levels are above 3 PPM due to risk of bodily injury.**

**STORAGE AND DISPOSAL:** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

#### **PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER:** Highly Corrosive. Causes skin burns and irreversible eye damage. May be fatal if swallowed. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT:** Do not mix with any other chemicals except water. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

*{Environmental hazards statements for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight).}*

**[ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.]

*{Environmental hazards statements for end-use products in containers of equal to, greater than 5 gallons (liquid), equal to, or greater than 50 pounds (solid, dry weight).}*

**[ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.]

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

## HOW TO CALCULATE POOL CAPACITY

### Shape of Pool Gallons of water

Rectangular	Average depth x average length x average width x 7.5
Circular	Diameter x diameter x average depth x 5.9
Oval	Full width x full length x average depth x 5.9
Irregular	Consult pool builder
