NET WEIGHT _____

[Spa Silken] [This product] works with [all major] spa water treatment programs to improve the feel and clarity of the water and suppresses algae growth. It enhances soaker comfort by providing soft, clear, silky water. It is especially effective with chlorinated and brominated spas and hot tubs. This product is suitable for [biguanide treated water and] use with mineral treatment systems in spas and hot tubs.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Initial Application Use or Re-fill

Apply [10 ounces] {or} [1.25 cups] of [Spa Silken] [this product] for each 200 gallons for spa water. The application of Spa Silken will cause the pH of your water to increase. It will be necessary to also apply [SpaGuard] pH Decreaser to properly balance the pH of your spa water as part of the application of Spa Silken. For each [10 ounces] {or} [1.25 cups] of [Spa Silken] [this product], 5 ounces of [SpaGuard] pH Decreaser will be needed.

The sequence of the application is: 1/2 of the Spa Silken total dosage, all of the pH Decreaser dosage followed by the remaining 1/2 of the Spa Silken total dosage. All applications should be done with the circulation pump operating. Each product is sprinkled into the area of the water with the most agitation. After each addition of product, be sure any undissolved granules are brushed off spa surfaces. Allow the water to circulate for 15 minutes between each application and for 20 to 30 minutes following the last application. Spa use may resume once this circulation time is finished.

Maintenance

Residential spas should be drained and refilled every 60 to 90 days. Commercial spas should follow local guidelines for refill frequency. Follow refill directions above after addition of refill water. Maintenance applications of [Spa Silken] [this product] may be needed if spa is not refilled frequently. Taking a sample of your spa water to your [SpaGuard Authorized] Dealer for testing each month is recommended.

STORAGE AND DISPOSAL: Store in original container and place in locked storage area. Do not contaminate water, food, or feed by storage or disposal. Do not reuse container, but place in trash collection. Wrap container and put in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals **WARNING:** Causes substantial but temporary eye injury. Harmful if swallowed. Do not get in eyes or on clothing. Wear protective eyewear (goggles or safety glasses) when handling this product. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Physical or Chemical Hazards

Do not mix with other chemicals. Do not add through skimmer. Do not add to any dispensing device.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight).}

[Environmental Hazards

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 50 pounds (solid, dry weight).}

[Environmental Hazards

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.
