

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue, NW
Washington, D.C. 20004

EPA Reg. Number:

5185-497

Date of Issuance:

DEC 9 2004

Term of Issuance:

Conditional

Name of Pesticide Product:

Wonder Tab

NOTICE OF PESTICIDE:

 Reregistration
 X Registration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Bio-Lab Inc.
P.O. Box 300002
Lawrenceville, GA 30049

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 5185-497."
 - b. In the "Ingredient statement" revise "Dichloro-s-triazinetriene" to read: "Sodium dichloro-s-triazinetriene".
 - c. Throughout the label change the "re-entry level" from "4ppm" to "3ppm".
 - d. Under the "Use Directions for Swimming Pool Sanitizer" please explain the steps 1 & 2 of the 3 step programs.

ACTIVE INGREDIENTS:
 Trichloro-s-triazinetrione 66.96%
 Dichloro-s-traizinetriene 18.19%
 OTHER INGREDIENTS: 14.85%
 TOTAL INGREDIENTS: 100.00%
 (Available Chlorine 72%)

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If irritation persists, call a poison control center or doctor for treatment advice. IF IN EYES: Hold eyelids open and rinse slowly and gently with cold water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See [back] [side] panel for additional precautionary statements.

NET WEIGHT:

[Pool Sanitization] {or}**[Swimming Pool Sanitizer]**

[Wonder Tab™] [This product] is an easy-to-use dual layer tablet combining Steps 1 & 2 of the 3 step programs, making pool water care more convenient. This patented product]provides] {or} [creates] crystal blue sparkling water with an easy once-a-week application. [Wonder Tab™] [This product] is a blend of oxidizers, clarifiers, and sanitizers that help keep your pool water sparkling clear. This tablet is a combination of a slow dissolving sanitizer layer and fast dissolving shock layer. [This product] [Wonder Tab™] kills bacteria and destroys contaminants in your pool. Use in conjunction with our recommended Step 3 preventative algaecide for the ultimate swimming experience.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE APPLYING PRODUCT:

Ensure all pool equipment is working properly. Consult your [BioGuard] {or} [swimming pool] dealer for additional water balance and start-up procedures. [Test the water's pH, total alkalinity, and calcium hardness and adjust to the correct level. Adjust pH to 7.2-7.6. Adjust total alkalinity to 125-150 PPM using Balance Pak® 100. Adjust calcium hardness to 200-275 PPM for plaster pools, 175-225 PPM for vinyl or fiberglass pools using Balance Pak® 300.] Backwash filter and use [Strip Kwik®] {or} [a filter cleaner] to chemically clean the filter. Add [a stabilizer] {or} [Stabilizer 100™] to establish a minimum stabilizer level of 30-40 ppm. Superchlorinate pool with [Burn Out® WP for plaster pools or Burn Out® 35 for vinyl-liner pools] {or} [an appropriate shock product] to obtain a free available chlorine level between 1-3 ppm. When using other products as outlined in the directions for this product, always follow label directions for those products.

START-UP/INITIAL TREATMENT:

[Wonder Tab™] [This product] should be added through the skimmer only. If there are multiple skimmers, divide the tablets evenly among the skimmers. Make sure skimmers are free of debris. (***)See below) With the pump operating and a free available chlorine level of at least 1.0 ppm, add four (4) tablets per 10,000 gallons of pool water. Operate pump between 10 - 12 hours per day in order to form the protective skin that reduces the erosion from the sanitizer portion of the tablet. Test the free available chlorine level using test strips or a test kit. Do not enter pool if free available chlorine level is above 4.0 ppm. When free available chlorine level is adjusted to 1-4 ppm, add a maintenance dosage of [Back-Up®] {or} [Algae All 60] {or} [an algaecide].

ROUTINE MAINTENANCE:

Test free available chlorine level regularly. About once a week, with pump operating, add (4) [Wonder Tab™] tablets per 10,000 gal. to skimmer to maintain a constant free available chlorine level of 1 – 4 ppm. Do not remove tablet remnants from skimmer basket(s). Simply check skimmer often and add additional tablet(s) as needed.

Operate pump between 10 - 12 hours per day in order to form the protective skin that reduces the erosion from the sanitizer portion of the tablet. If pump run time exceeds 12 hours per day, before adding additional tablets, test free available chlorine level. If the free available chlorine level is above 4 ppm, do not add additional tablets.

You may need to shock your pool [with [Burn Out® WP or BurnOut® 35] *{or}* [Smart Shock]] *{or}* [with a shock product] after heavy rain or heavy use to help keep your pool water properly maintained.

***The number of tablets and frequency of addition will vary with sunlight, rainfall, water temperature, number of swimmers, and pump operation. Test pool water frequently during initial use by using a test kit or test strips to determine when it is necessary to add another dose of [Wonder Tab™] *{or}* [this product] to maintain a chlorine level of 1-4ppm.

Reentry into treated swimming pools is prohibited when free available chlorine levels are above 4 PPM due to risk of body injury.

STORAGE AND DISPOSAL:

STORAGE : Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. Causes skin irritation. Harmful if swallowed or absorbed through skin. Harmful if inhaled. Avoid breathing dust. Do not get in eyes, on skin or on clothing. Wear safety glasses, protective clothing and rubber gloves when handling this product. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove and wash contaminated clothing before reuse:

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS A STRONG OXIDIZING AGENT.

Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add other chemicals through the skimmer when using this product- an explosion might occur. Do not add this product to any dispensing device. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers equal to or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
