

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

5185-516

Date of Issuance:

2/4/25

NOTICE OF PESTICIDE:

☒ Registration

☐ Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

T-0080

Name and Address of Registrant (include ZIP Code):

Jaqueline Stewart (Sumski)
Delta Analytical Corporation
Electronic Transmittal: jstewart@delta-ac.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Marcel Howard, Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

2/4/25

2. You are required to comply with the data requirements described in the DCI identified below:

Poly [oxyethylene (dimethyliminio) ethylene dimethyliminio]ethylene dichloride]
GDCI-069183-30193

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 5185-516."
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 08/05/2024

If you have any questions, please contact Terria Northern via email at northern.terria@epa.gov.

{Optional Marketing Claims}

[Non-foaming, ideal for pools with attached spas]
[Algaecide] {or} [Algicide] [for Use in [Swimming Pools [, Swim Spas,] and Spas]
[Algae Control for Swimming Pools [, Swim Spas,] and Spas]
[For use in Swim Spas]
[Ideal for salt pools]
[Ideal for pools using salt chlorine generators]
[Works with all sanitizing systems]
[Non-foaming algae preventative]
[Non-foaming]
[Fast acting multi-functional formula]
[Helps maintain low phosphates]
[Ideal to maintain low phosphate levels while preventing algae]
[Kills and prevents algae while removing phosphates]
[Remove[s] problem-causing phosphates while treating algae]
[[Combination] {or} [Combo] algaecide [and] {or} [&] phosphate remover]
[Multi-functional formula [kills algae and removes phosphate]]
[Removes phosphate[s] and kills algae]
[The KLEAR choice in algae treatment with phosphate removal]
[The KLEAR choice to kill and prevent all types of algae[†]]
[[Kills] [and] [prevents] all types of algae[†]]
[[†]Green, Mustard, and Black pool algae]

{Directions to be used for prevention and treatment of pool, spa, hot tub, or swim spa algae (Option A)}

**[[SWIMMING POOL][AND][SWIM SPA] [ALGAECIDE]{or}[ALGICIDE] and ALGAE PREVENTATIVE]
[With built-in phosphate remover]**

{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity. One of the following Options will be used on the label}

{Optional Marketing Statement A}

[This product]{or}[T-0080] is used to control and prevent the growth of algae in [swimming pools] [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains] [or][and] [swim spas][, spas, and hot tubs]. [This product]{or}[T-0080] may be used in chlorinated or brominated systems. [This product]{or}[T-0080] will not foam and prevents all types of [pool] algae while removing problem-causing phosphate.

{Optional Marketing Statement B}

Killing and preventing algae while maintaining low phosphate levels is easy when using [T-0080]{or}[this product]. [This product]{or}[T-0080] is used to control and prevent the growth of algae in [swimming pools] [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains] [or] [swim spas][, spas, and hot tubs]. This product may be used in chlorinated or brominated systems. This product will not foam and prevents all types of [pool] algae while removing problem-causing phosphate.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

General Instructions:

1. Maintain pool water in the pH range of 7.2 to 7.8. Total alkalinity 80 – 150 ppm. In chlorinated pools, add stabilizer to establish a minimum stabilizer level of 30 – 40 ppm to reduce the degradative effects of sunlight upon the chlorine residual.
2. Adjust chlorine residual to 1 – 4 ppm. When using other products as outlined in directions for this product, always follow directions on those products.
3. Ensure all equipment is working properly. Backwash filter system or rinse cartridge following manufacturer's directions.
4. Brush [pool][swim spa]{or}[spa] surfaces.
5. Calculate the volume of [T-0080] required for the [pool] [or] [swim spa].
6. With pump on, add product directly to the pool deep end.

Algae Prevention:

For treatment of freshly cleaned and filled [pool] [or] [swim spa], pour directly into [pool] [or] [swim spa] initial dose of 13 to 24 [fluid ounces]{or}[fl oz] of this product per 10,000 gallons of water. Make additions of 4 to 7 [fluid ounces]{or}[fl oz] of this product per 10,000 gallons of water every 5 – 7 days after initial treatment for maintenance.

Algae Treatment:

For [pools] [or] [swim spas] having algae growth, pour directly into [pool] [or] [swim spa] initial dose of 24 to 32 [fluid ounces] {or} [fl oz] of this product per 10,000 gallons of water and remove settled algae debris by cleaning.

Note: Water may temporarily cloud upon addition. Wait at least 15 minutes after use before swimming.

Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of body injury.

Discharge Directions for [Commercial] [and] [Residential] [Pool] [Spa] [and] [Hot Tub] [Swim Spa]

Uses: Before draining a treated [pool] [spa] [or] [hot tub] [swim spa], contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool] [spa] [or] [hot tub] [swim spa] water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

{Directions to be used for prevention and treatment of pool, spa, hot tub, or swim spa algae (Option B)}

Killing and preventing algae while maintaining low phosphate levels is easy when using [T-0080] {or} [this product]. [This product] {or} [T-0080] is used to control and prevent the growth of algae in [swimming pools] [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains] [or] [and] [swim spas] [,spas, and hot tubs]. This product may be used in chlorinated or brominated systems. This product will not foam and prevents all types of pool algae while removing problem-causing phosphate.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

1. Ensure all equipment is working properly. Backwash the filter system or rinse cartridge following manufacturer's directions.
2. Adjust chlorine residual to 1 – 4 ppm prior to re-entry. When using other products as outlines in directions for this product, always follow directions on those products.
3. Brush [pool][swim spa] {or} [spa] surfaces.
4. Determine appropriate dose. See methods below.
5. Add product directly to the pool deep end preferably in front of a water return with pump running.

Dosage recommendation is per 10,000 gallons of [pool] [or][and] [spa][swim spa] water	
Prevent Algae For treatment of a freshly cleaned and filled [pool] [or] [swim spa]	Pour directly into pool initial dose of 13 to 24 [fluid ounces] {or} [fl oz] of this product. Make additions of 4 to 7 [fluid ounces] {or} [fl oz] of this product every 5 – 7 days after initial treatment for maintenance.
Treatment of Visible Algae For [pools] [or] [swim spas] having algae growth	Pour directly into pool initial dose of 24 to 32 [fluid ounces] {or} [fl oz] of this product and circulate for 24 to 48 hours. Remove settled algae debris by cleaning.

Note: Water may temporarily cloud upon addition. Wait at least 15 minutes after use before swimming.

Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of body injury.

Discharge Directions for [Commercial] [and] [Residential] [Pool] [Spa] [and] [Hot Tub] [Swim Spa] Uses: Before draining a treated [pool] [spa] [or] [hot tub] [swim spa], contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool] [spa] [or] [hot tub] [swim spa] water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

{Reader's note: Storage and Disposal statement for product sold for residential use:}

[STORAGE AND DISPOSAL: Do not contaminate food or feed by storage or disposal. **CONTAINER STORAGE:** Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well-ventilated area. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available or place in trash.]

{Reader's note: Storage and Disposal statement for product sold for commercial use:}

[STORAGE AND DISPOSAL: Do not contaminate food or feed by storage or disposal. **CONTAINER STORAGE:** Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well-ventilated area. **PRODUCT DISPOSAL:** Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling if available or place in trash.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [1-866-366-5048] [telephone number supplied by supplemental registrant].]

PHYSICAL OR CHEMICAL HAZARDS: This product is a mild reducer! Keep it away from strong oxidizing agents such as sodium hypochlorite bleach and chlorine tablets for swimming pools. Do not mix with concentrated dry or liquid chlorine products.

{Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 5 gallons (liquid).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

[NOTE: User assumes all responsibility for use not in accordance with directions.]
