DIRECTIONS

GENERAL CLASSIFICATION

BEST DOCUMENT AVAILABLE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep container closed. Do not use or store near heat or open flame.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: 20, 35, 55 and 65 gallon drums: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

5 gallon pails: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Smaller Containers: Do not reuse empty container. Wrap container and put in trash collection.

KEM CHEK reduces the hazard of contamination by airborne bacteria and viruses when used as follows:

Spray KEM CHEK generously, sweeping the area in an upward direction until fog reaches all corners of the room. (Use 2 - 4 oz. per 9x12x12 room). Enclosed areas work best. Allow a minimum of two hours after fogging before re-occupying room. Apply several hours before scheduled use. Repeat as necessary.

KEM CHEK will control odors of stale smoke, cooking, putrefaction or decay, body odors and the unpleasant odors found in most rest rooms. Excellent for neutralizing hospital odors. For use in all buildings and for deodorizing airplanes, buses, cars, lockers.

KEM CHEK is an excellent answer to the problem of deodorizing athletic clothing and shoes at the bowling alley or school. Spray clothing and shoes lightly to thoroughly wet all surfaces. Allow to dry before using.

There are many other methods for effective use of KEM CHEK. To reduce musty odors, add 1 cup KEM CHEK to 2-1/2 gallons of water and damp mop floors. Add a few drops of KEM CHEK to bed pans or on the floor near urinals or commodes to neutralize the usual foul odors.

KEM CHEK provides a temporary reduction in the bacteria count in the air, and conditions the air with a faintly perfumed effect.

FOR PROFESSIONAL USE ONLY
