CENTER PANEL

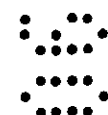

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DEODORIZING: Using a good atomizing type sprayer (we recommend a KEMISTER), spray GERMEX upward toward the ceiling. Spray until a light fog envelopes the entire area. Repeated applications should be made periodically according to prevailing conditions. Use as received. Do not dilute. Wait two hours after fogging before entering area.

Removes unpleasant odors of decay, smoke, garlic, onions, food putrefaction, perspiration, stale air, tobacco, sick rooms, musty closets, fish, etc. These bad odors are destroyed and completely eliminated.

Not Reviewed. Registrant claims to be in accordance with
EPA's Division of Pesticide Product Guidance for Phase 2
Registration, Page 2 12, Active to Inert Change in Status.

DISINFECTING: Hold dispenser about 12 to 16 inches from surface to be disinfected and spray concentrated GERMEX until surface is wet.

KEM GERMEX is a powerful disinfectant and deodorant acting on germ-laden surfaces such as toilet seats, telephones, wash basins, empty refuse cans, urinals, hospital light switches, office machinery, laundry chutes, door knobs and other equipment after the surface has been properly cleaned. GERMEX controls athlete's foot fungi. GERMEX is a powerful hospital disinfectant for such surfaces as: metal bed frames and springs, linen carts, wheel chairs, dressing carts, empty hampers, air ducts, clean up carts.

RIGHT PANEL

FIRST AID: In case of eye contact, flush with large quantities of water and get medical attention.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Avoid inhalation of mist. Do not use on surfaces that will come in prolonged contact with the skin.
