

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General: Use SNIPER as a spot treatment to control cockroaches, termites, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. To control the source of flea infestation treat pets with a product registered for animal application. Do not spray pets with this product.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

KEM

KEM KILL-B

RESIDUAL INSECTICIDE

**RESIDUAL SPRAY
KILLS RESISTANT ROACHES**

Recommended for the control of roaches, ants, and other insect pests, resistant and non-resistant in hospitals, institutions, supermarkets, bakeries, warehouses, as a spot treatment.

ACTIVE INGREDIENTS:

Pyrethrins.....	.05%
*Piperonyl butoxide, technical.....	.10%
N-octyl bicycloheptene dicarboximide.....	.17%
**2-(1-Methylethoxy) phenol methylcarbamate.....	.50%
***INERT INGREDIENTS:	<u>99.18%</u>
TOTAL	100.00%

*Consists of .08% (Butylcarbityl) (6-propylpiperonyl) ether and .02% related compounds.

**U.S. Patent No. 3,111,539.

***Contains Petroleum Distillates

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Keep container closed. Do not store near fire, open flames or sparks. Avoid contamination of feed, food, food processing equipment and food handling surfaces.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Smaller Containers: Do not reuse container. Rinse thoroughly before discarding in trash.

Spray infested surfaces only until wet. Point spray away from people, plants, and pets.

ROACHES, ANTS, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS: Spray heavily in all cracks around baseboards, and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks and stoves. Use on other localized areas infested with these pests. Repeat treatment as necessary. Do not spray foodstuffs or house plants.

CARPET BEETLES: Make localized application to areas of the floor and baseboards, spray directly into cracks, and under carpets where insects may be found. Treat crevices, cracks, or closets and infested areas of shelvings. Repeat as necessary.

FLIES, MOSQUITOES, WASPS AND FLYING MOTHS OUTDOORS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

FLEAS, CHIGGERS, ANTS AND BROWN DOG TICKS OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as necessary.

Applications of this product in the home should be limited to spot treatments only.

Avoid excessive wetting of plastic, rubber and asphalt surfaces such as tiles and floor coverings.

COLUMN 3

FOOD HANDLING ESTABLISHMENTS - Places other than private residences in which exposed food is held, processed, prepared or served. **FOOD AREAS-APPLICATIONS LIMITED TO CRACK AND CREVICE TREATMENT ONLY.** Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation would be considered a food area). Apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream of insecticide in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where ants, cockroaches, silverfish or waterbugs hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

NON-FOOD AREAS - Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing the spray mist. Provide adequate ventilation of the area being sprayed. Contact with skin, eyes and clothing should be avoided. Wash thoroughly after using. Avoid contamination of food, utensils and food preparation areas. Should poisoning occur, get prompt medical attention.

NOTE TO PHYSICIAN: Atropine sulfate is antidotal.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting; get prompt medical attention.

IF INHALED: Move the person to fresh air and treat symptomatically.

IF ON SKIN: Wash with soap thoroughly. If skin irritation persists, see a physician.
