

PURPOSE: To reduce the degreening time of citrus fruit when used in combination with ethylene gas.
Refer to Brogdex Co. Bulletin 'Quick Color and Vaporizer' for detailed instructions.

Directions:

Use two quarts of QUICK COLOR for each 1000 cubic feet of space in the coloring room. Use of QUICK COLOR dispenser and vaporizer are recommended. If not available, QUICK COLOR may be vaporized from cloth pads placed in shallow trays. Keep doors and vents closed for 24 hours for best results. Room should be moderately tight with fans or other means of air circulation. Open doors and vents and allow air to circulate through chamber until odor of QUICK COLOR has completely disappeared before re-entering.

**KEEP OUT OF REACH OF CHILDREN
WARNING! Vapor Harmful**

Keep the container closed. Avoid breathing Vapor. Avoid prolonged or repeated contact with the skin. Harmful if swallowed.

ACTIVE INGREDIENTS

1,1,1-trichlorethane	50.63%
