BROGDEX[®]

COMPANY

1441 West Second Street, Pomona, California

Net Contents _____ U.S. Gallons

EPA Reg. No. 5202-
EPA EST. 5202-CA-1

CROP DIRECTIONS

Brogdex 593-F does not have to be agitated if used before the date stamped below:

Use Before _____ or Agitate

If not used before the above date the container must be thoroughly mixed. Mixing should be repeated every 30 days or gentle agitation on a continuous basis may be used.

CITRUS FRUITS: (Postharvest) Blue Mold, Green Mold and Stem-end rot - Dilute one gallon of Brogdex 593-F to 30 gallons with water for a 1000 ppm treating suspension. Treat clean fruit by dip, spray or flood application. Drain treated fruit thoroughly, do not rinse treated fruit.

APPLES: (Postharvest) Blue Mold, Gray Mold, Bull's eye rot - Dilute one gallon Brogdex 593-F to 30 gallons with water for a 1000 ppm treating suspension. Treat sound fruit by dip, spray or flood application. Treat fruit before and after storage for maximum disease control. Do not treat for more than three minutes per application. Drain fruit thoroughly and do not rinse after treatment.

PEARS: (Postharvest) Blue Mold, Gray Mold, Bull's eye rot - Dilute one gallon Brogdex 593-F to 30 gallons with water for a 1000 ppm treating suspension. Treat sound fruit only once, either before or after storage, for not more than three minutes. Treat by dip, spray or flood. Drain fruit thoroughly and do not rinse after treatment.

NOTE: Fungi may develop tolerance to Brogdex 593-F. If such tolerance (or resistance) is suspected, switching to a non-benzimidazole fungicide is advised. Check with your supplier if confirmatory tests are desired.
