Inerts	9.98%

5. (2%)

... keep away from fire and flame. ... If impossible for the user to make any warranty

... should be taken to ascertain internal condition of

- Apply 1/4" layer of K-BAN grease to the area in need of treatment. K-BAN grease is adaptable to either machine or hand application. Minimum treatment should extend from 3 inches above ground line to 18 inches below ground line. Wrap treated area with special K-BAN paper.
- Back-fill pole and tamp. Do not back-fill above K-BAN treated area.

RECOMMENDED FOR GROUNDLINE TREATMENT. ADDS YEARS OF LIFE TO STANDING POLES AND POSTS IN CONTROLLING WOOD ROTTING ORGANISMS.
